LETTER TO SHAREHOLDERS

DEAR SHAREHOLDERS,

As you know, our vision is to build the most holiday-maker-friendly company in the world. In the third quarter of 2016 we took the next step in this direction by defining our company values and setting up a new programme entitled Talent 2020.

CANCELLATION RATE UP FOLLOWING ATTEMPTED COUP IN TURKEY

During the third quarter of 2016, political developments in Turkey had a negative impact on our business operations. News of the attempted coup reached us in mid-July. Fortunately, the situation in Turkey's resort areas remained calm, and there was no immediate danger to our holidaymakers.

In the aftermath of the failed coup, however, many people considering a last-minute summer trip to the country were put off by the negative headlines. As a result, the number of bookings to Turkey fell substantially, and the cancellation rate for existing bookings rose by a considerable margin.

THIRD-QUARTER IMPROVEMENT IN CONSOLIDATED NET PROFIT/LOSS

Despite a poor start, the third quarter ended on a positive note. The overall climate for tourism returned to normal in September, bringing a significant recovery in demand for bookings. Over the third quarter as a whole, revenue was up by around three percent, while consolidated net profit/loss from continuing operations showed a clear improvement.

NEW COMPANY VALUES

In July around 300 employees from all five of the company's locations spent a day together at Lake

A handwritten signature in black ink, appearing to read "Dr. Stephan Hartmann".

Constance to discuss in considerable detail how best to integrate HolidayCheck Group AG's new company values into the everyday work of each and every member of the workforce.

INVESTING IN OUR EMPLOYEES

Our new values underpin all our endeavours to gradually achieve HolidayCheck Group AG's stated vision of becoming the most holidaymaker-friendly company in the world with the best team in the entire tourism industry. To this end, we want to embed those values in all our HR processes – from the recruitment of talented

new individuals through employee feedback, employee assessment and career development.

We need people with the right skills and talents so that we can make it even easier for our customers to find and book the right holiday with the help of our products. We believe that investing in our employees provides the best and most sustainable return.

SOLID FINANCIAL BASIS WITH A HEALTHY BALANCE SHEET

Financially, we are in an extremely strong position to

meet this challenge. At the end of the first quarter we repaid the last of our outstanding bank loans, and we now have an equity ratio of over 86 percent with funds of around EUR 33 million available to spend.

Yours sincerely

HOLIDAYCHECK GROUP AG MANAGEMENT REPORT FOR THE FIRST NINE MONTHS OF 2016

1. GROUP STRUCTURE AND BUSINESS MODEL

1.1 Organisational structure

HolidayCheck Group AG, a joint-stock company under German law (Aktiengesellschaft) with its registered office in Munich, Germany, is the parent company of the HolidayCheck Group, an Internet group with operations in Central Europe. We have been an exchange-listed company for around sixteen years.

As part of a strategy of realignment towards business activities in the holiday sector, all the Group's operating companies outside the Travel and Other segments were sold over the course of financial 2015 with the exception of organize.me, whose main assets were then sold in the first quarter of 2016, and Meteo-Vista.

The Group's holiday brands occupy leading positions in their respective markets. In the first nine months of 2016 our average total workforce was 383 full-time equivalents (FTEs) based at five locations in Germany, the Netherlands, Poland and Switzerland.

1.2 Segments

Since the beginning of financial 2016, the Management Board has managed the Group on the basis of key indicators for the entire business rather than on a segment basis. As such, the business is no longer divided into segments.

1.3 Description of business operations

The HolidayCheck Group comprises on the one hand a number of operating companies that mainly generate revenue from transaction-based online business models in the fields of travel and weather.

HolidayCheck AG (based in Bottighofen, Switzerland) and WebAssets B.V. (based in Zeist, Netherlands) operate a range of hotel rating and holiday booking portals that generate revenue in the form of commission for package tours and hotel bookings and from website links that take visitors to other booking portals.

The core sales markets for these web portals are Austria, Belgium, Germany, the Netherlands, Poland and Switzerland.

WebAssets B.V. also operates advertising-based weather portals. Its main source of revenue is online advertising, and its core sales markets are Belgium, Germany and the Netherlands.

The other main components of the HolidayCheck Group are the non-operating company HolidayCheck Group AG (based in Munich, Germany) and the internal service providers HolidayCheck Polska and HolidayCheck Solutions, which generate no significant amounts of external revenue.

In the first nine months of 2016, the HolidayCheck Group achieved total consolidated revenue of EUR 84.6 million compared with EUR 83.5 million in the same period of 2015.

1.4 Research and development activities

Development activities are conducted on a decentralised basis within the Group companies. To a large extent, HolidayCheck Group AG's subsidiaries draw on their own development resources. The work performed by Group employees in this field is capitalised as software developed in-house, while the remaining work is recognised as personnel costs. Whenever subsidiaries make use of externally supplied development services, that work is also capitalised, while the remaining development costs are recognised under other expenses. In general, there are no research expenses.

2. ECONOMIC REPORT

2.1 Macro-economic and industry situation

2.1.1 Macro-economic situation

Deutsche Bank's Global Market Research unit anticipates moderate economic growth in the HolidayCheck Group's core sales markets over the current financial year.

After adjusting for inflation, Dutch gross domestic product (GDP) is forecasted to increase by 1.6 percent and Belgian real GDP by 1.3 percent. Austria is also expected to register growth of 1.3 percent and Switzerland's GDP is anticipated to increase by 1.6 percent, again after adjusting for inflation. According to the experts at Deutsche Bank AG, Germany is set to lead the way with anticipated real GDP growth of 1.9 percent.

The GDP figures quoted above are based on estimates published by Deutsche Bank's Global Market Research unit on 5 October 2016.

2.1.2 Industry situation

Total industry revenue in the core markets targeted by our holiday portals showed a significant year-on-year decline in the first nine months of 2016. According to our own estimates, this downturn particularly affected overall package holiday sales in Central Europe, which suffered an unusually steep decline of around five to ten percent compared with the same period of 2015. Among the main factors here were the series of terrorist attacks in France, Turkey and Belgium and the attempted coup in Turkey. Overall, these created a heightened sense of insecurity among holidaymakers. Out of the main package holiday destinations for Central European holidaymakers, Spain above all recorded a strong increase in bookings. By contrast, countries such as Egypt, Tunisia and Turkey were badly affected by the general reluctance to make holiday bookings.

Competitive pressures in our core sales markets remained persistently high. Despite this, based on assessments by the companies concerned, HolidayCheck Group's travel portals were able to increase their respective market shares.

These assessments are based on the company's own estimates.

2.2 Business development and performance

Given the industry's current difficulties, the Group's results for the first three quarters present a satisfactory picture. Towards the end of the third quarter in particular, the tense industry situation appeared to be returning to normal.

As expected, revenue at WebAssets B.V. was slightly down on the previous year's level. This was mainly

due to the sale of Zoover's and Tjingos' travel agency operations and the almost complete discontinuation of WeerOnline's business-to-business (B2B) activities. Nevertheless, HolidayCheck AG once again increased its share of the German package holiday market by a significant margin in the first nine months of 2016. By contrast, partly as a result of focusing on the much larger package holiday business, the Hotel Only business lost some of its share of a generally weak market.

Total consolidated revenue for the first nine months rose by a modest 1.3 percent from EUR 83.5 million in 2015 to EUR 84.6 million in 2016. Group EBITDA for the first nine months declined by 17.1 percent year on year from EUR 4.1 million to EUR 3.4 million.

The Group's equity ratio rose from the 2015 year-end figure of 76.3 percent to 86.3 percent as at 30 September 2016. This was mainly due to loan repayments.

2.2.1 Business development

Annual general meeting approves resolution to change trading name from Tomorrow Focus AG to HolidayCheck Group AG

The shareholders and proxies who attended the annual general meeting of Tomorrow Focus AG in Munich, Germany, on 16 June 2016 voted by a large majority in favour of a resolution to change the company's trading name to HolidayCheck Group AG.

The decision means that the company's successfully implemented strategy of focusing on its holiday brands, especially HolidayCheck, is now reflected in its name. The change took effect on 21 June 2016 when the corresponding entry was made in the commercial register.

All the other resolutions on the agenda at the annual general meeting were also approved by clear majorities. Around 83 percent of the company's share capital with voting rights was represented at the meeting.

Dr Dirk Altenbeck, Dr Thomas Döring, Dr Andreas Rittstieg, Aliz Tepfenhart and Stefan Winners were re-elected to the Supervisory Board. They were joined by newly elected member Alexander Fröstl, General Manager of iLX GmbH. He succeeds Holger Taubmann, who stepped down from the Supervisory Board at his own request at the end of the annual general meeting. Following the shareholders' meeting, the Supervisory Board re-elected Stefan Winners as its Chairperson.

Resolutions to approve the actions of the Management Board and Supervisory Board were also passed by large majorities.

The precise voting results for each agenda item and the presentation accompanying the annual general meeting are available on the new website www.holidaycheckgroup.com under the heading Investor Relations.

HolidayCheck Group AG opts for early settlement of earn-out obligations from acquisition of further tranche of shares in WebAssets B.V.

In February 2016 HolidayCheck Group AG concluded a settlement agreement with the pre-takeover shareholders of WebAssets B.V. in respect of its remaining earn-out obligations. Under the terms of the agreement, HolidayCheck Group AG settled all its obligations (except a retained amount of EUR 0.1 million as security) through a payment of EUR 2.1 million. The obligation was already valued at the repayment figure in the 2015 financial statements.

HolidayCheck Group AG sells assets of subsidiary organize.me GmbH in two asset deals

On 1 February 2016 HolidayCheck Group AG sold all the main assets of organize.me GmbH in two asset deals for a total of EUR 1.1 million. organize.me GmbH previously operated an online document storage service and a scanning app. The company's business-to-business (B2B) activities and assets were sold to a third party (EUR 1,000 thousand), whereas parts of its business-to-customer (B2C) operations will be reused within the Group (EUR 80 thousand). The B2C online storage services and app were closed down on 29 February 2016.

organize.me GmbH merged into HolidayCheck Group AG

In August 2016, following the above disposal of assets, organize.me GmbH, as the transferor company, was merged by amalgamation into HolidayCheck Group AG, acting as the absorbing company in accordance with the German Transformation Act.

Merger of TF Digital GmbH into HolidayCheck Group AG

In August 2016 the non-operating company TF Digital GmbH, as the transferor company, was merged by amalgamation into HolidayCheck Group AG, acting as the absorbing company in accordance with the German Transformation Act.

HolidayCheck Group AG opts for early settlement of earn-out receivables from the sale of shares in Cellular GmbH

In April 2016 HolidayCheck Group AG concluded a settlement agreement with the buyers of Cellular GmbH in respect of their remaining earn-out obligations. Under the terms of the agreement, the buyers settled all their obligations through a payment of EUR 0.7 million. This receivable had been recognised for the first time at the repayment value as at 31 March 2016. The income of EUR 0.7 million generated by the deal was allocated to discontinued operations.

Settlement agreement with Parship Elite Group GmbH

An agreement was concluded on 30 August 2016 to settle definitively all the outstanding claims of both parties. The agreement led to purchase price adjustments of EUR 0.5 million and ex post selling costs of EUR 0.2 million.

2.2.2 Performance

2.2.2.1 Income

Following the Group's successful strategic realignment, the Management Board took the decision to change the structure of the consolidated statement of income beginning in financial 2016. The new structure is designed to provide a clearer and more informative picture of the Group's business activities. The figures for the previous year have been adjusted accordingly. Further details can be found in section 2.2 of the notes to the consolidated financial statements.

2.2.2.1.1 Total operating income

At EUR 89.4 million, total operating income in the first three quarters of 2016 was 1.7 percent higher compared with the figure of EUR 87.9 million in the same

period of 2015. Total operating income in the third quarter of 2016 rose by 2.7 percent year on year from EUR 29.9 million in 2015 to stand at EUR 30.7 million.

Consolidated revenue for the first nine months was up by a small margin of 1.3 percent from EUR 83.5 million in 2015 to EUR 84.6 million in 2016. At EUR 29.6 million, the third-quarter total was 2.8 percent higher compared with EUR 28.8 million in the same period of 2015.

As expected, revenue at WebAssets B.V. in the first three quarters of 2016 was down on the previous year. This was mainly due to the sale of Zoover's and Tjingo's travel agency operations and the almost complete discontinuation of WeerOnline's B2B activities.

Over the same period, however, HolidayCheck once again increased its share of the German package holiday business by a significant margin in an extremely weak market environment. By contrast, partly as a result of focusing on the much larger package holiday business, the Hotel Only business lost some of its share of a generally weak market. Overall, HolidayCheck AG achieved a modest increase in revenue in the first nine months of 2016.

At EUR 1.9 million, **other income** in the first nine months of 2016 was unchanged year on year. The third-quarter figure was also at a par with the previous year's level at EUR 0.2 million.

Other own work capitalised in the first nine months of 2016 stood at EUR 2.9 million, an increase of 16.0 percent compared with the figure of EUR 2.5 million in the same period of 2015. In the third quarter, other own work capitalised stood at EUR 0.9 million – unchanged year on year.

2.2.2.1.2 EBITDA

Marketing costs increased by 16.4 percent from EUR 38.9 million in the first nine months of 2015 to EUR 45.3 million in the period under review. At EUR 15.3 million, the third-quarter figure was 12.5 percent higher compared with EUR 13.6 million in 2015. This was mainly due to price increases and a large-scale marketing campaign by Zoover in the Netherlands in the first half of 2016. The combination of marketing tools used within the Group is continuously monitored and adapted in order to keep costs under control.

Personnel costs in the first nine months were EUR 24.4 million compared with EUR 26.9 million in the same period of 2015, a 9.3 percent decline. In comparison, third-quarter personnel costs were up by 13.3 percent to EUR 9.4 million compared with

EUR 8.3 million in 2015. The figure for personnel costs linked to ongoing business operations decreased by 5.0 percent in the first nine months to EUR 24.5 million, but increased by 4.6 percent in the third quarter to stand above the previous year's level at EUR 9.1 million. The Group recorded income of EUR 0.1 million from long-term incentive plans and pensions in the first nine months of 2016 and expenditure of EUR 0.3 million in the third quarter of the year. By comparison, in the first nine months and third quarter of 2015 these items produced expenditure of EUR 1.1 million and income of EUR 0.4 million respectively. The figures for 2015 also included non-recurring expenses of EUR 1.6 million in respect of settlements.

At EUR 16.4 million, **other expenses** in the first nine months of 2016 decreased marginally by 8.9 percent compared with EUR 18.0 million in the same period of 2015. In the third quarter, other expenses fell by 34.5 percent from EUR 5.5 million in 2015 to EUR 3.6 million. This was mainly due to reduced consultancy costs.

At EUR 3.4 million, **EBITDA** for the first nine months of 2016 was down 17.1 percent year on year (first nine months 2015: EUR 4.1 million). Third-quarter EBITDA stood at EUR 2.4 million after EUR 2.5 million in 2015 – a fall of 4.0 percent.

2.2.2.1.3 Calculation of operating EBITDA from EBITDA

The following table on the next page provides additional information on exceptional items that have an impact on EBITDA and therefore on consolidated net profit/loss (in each case before discontinued operations). It shows the method of calculating operating EBITDA, which we use as a key performance indicator.

Operating EBITDA for the first nine months of 2016 was EUR 2.9 million compared with EUR 6.8 million in the same period of 2015. The third-quarter figure was EUR 2.7 million (third quarter 2015: EUR 2.7 million).

CALCULATION OF OPERATING EBITDA FROM EBITDA

	1 January to 30 September 2016 (EUR million)	1 January to 30 September 2015 (EUR million)	1 July to 30 September 2016 (EUR million)	1 July to 30 September 2015 (EUR million)
EBITDA	3.4	4.1	2.4	2.5
Minus: income				
Plus: expenses from personnel obligations linked to long-term incentive plans and pension provisions	-0.1	+1.1	+0.3	-0.4
Minus: income from the reversal of liabilities	-0.4	0.0	0.0	0.0
Plus: Settlement expenses	0.0	+1.6	0.0	+0.6
Operating EBITDA	2.9	6.8	2.7	2.7

2.2.2.1.4 Other items in the consolidated statement of income

Depreciation, amortisation and impairment charges declined by 12.8 percent from EUR 4.7 million in the first nine months of 2015 to EUR 4.1 million in the period under review and by 6.7 percent from EUR 1.5 million in the third quarter of 2015 to EUR 1.4 million in the third quarter of the current financial year. This was mainly due to impairment charges at the end of financial 2015.

EBIT for the first nine months of 2016 stood at minus EUR 0.7 million compared with minus EUR 0.6 million in the same period of 2015. At EUR 1.0 million the third-quarter EBIT was unchanged with the figure for the third quarter 2015.

The **financial result** in the first nine months of 2016 improved to EUR 0.1 million compared with minus EUR 1.1 million in the same period of 2015. The financial result in the third quarter of 2016 stood at EUR 0.1 million compared with minus EUR 0.4 million in the same quarter of 2015.

This was due to reductions of EUR 1.0 million and EUR 0.4 million in financial expenses in the first nine months and third quarter respectively, primarily as a result of lower interest expenses for loans.

EBT stood at minus EUR 0.6 million in the first nine months of 2016 (January to September 2015: minus EUR 1.7 million). EBT in the third quarter of 2016 was EUR 1.1 million (third quarter 2015: EUR 0.6 million).

The **tax result** for the first nine months of 2016 increased to minus EUR 0.2 million compared with minus EUR 1.1 million in the same period of 2015. The corresponding figure for the third quarter was minus

EUR 0.2 million in 2016 compared with minus EUR 0.4 million in the previous year.

This was due to a decline in local results at HolidayCheck AG and WebAssets B.V. and the resulting fall in actual tax expenses.

Consolidated net profit/loss from continuing operations was up to minus EUR 0.8 million in the first nine months of 2016 (first nine months 2015: minus EUR 2.8 million). The corresponding figure for the third quarter was EUR 0.9 million (third quarter 2015: EUR 0.2 million).

Consolidated net profit/loss from discontinued operations was EUR 0.0 million in the first nine months of 2016 compared with EUR 18.2 million in the same period of 2015. The corresponding figure for the third quarter was minus EUR 0.2 million compared with EUR 0.9 million in the same quarter of 2015. The first nine months figure for 2015 includes accumulated non-recurring income of EUR 20.5 million from the disposal of Tomorrow Focus Publishing GmbH.

Consolidated profit/loss from all operations was minus EUR 0.8 million in the first nine months of 2016 compared with EUR 15.4 million in the same period of 2015. Third-quarter consolidated profit/loss stood at EUR 0.8 million in 2016 compared with EUR 1.1 million in the previous year.

Group comprehensive income for the period from January to September 2016 was minus EUR 0.8 million compared with EUR 15.3 million in the same period of 2015. The corresponding figure for the third quarter of 2016 was EUR 0.8 million (third quarter 2015: EUR 1.0 million).

Consolidated earnings per share from continuing operations stood at minus EUR 0.01 in the first nine months of 2016 compared with minus EUR 0.05 in the same period of 2015. The third-quarter figure for 2016 was EUR 0.02 compared with EUR 0.00 in the same quarter of 2015.

Consolidated earnings per share from discontinued operations came to EUR 0.00 in the first nine months of 2016 compared with EUR 0.31 in the same period of 2015. The third-quarter figure for 2016 was EUR 0.00 compared with EUR 0.01 in the third quarter of 2015.

Consolidated earnings per share from all operations were minus EUR 0.01 in the first nine months of 2016 compared with EUR 0.26 in the same period of 2015. The third-quarter figure for 2016 was EUR 0.01 compared with EUR 0.02 in the third quarter of 2015.

2.2.2.2 Asset and financial position

2.2.2.2.1 Financial position

Cash flows

The following section contains an analysis of cash flows from operating, investing and financing activities in the first nine months of 2016 and the same period of 2015.

Net cash from operating activities in the first nine months of 2016 was minus EUR 4.5 million compared with minus EUR 0.7 million in the same period of 2015. This was partly due to a decline in operating EBITDA. Another factor is that in the previous year the Group's discontinued operations generated net cash from operating activities totalling EUR 1.5 million (see section 5.d of the notes).

Net cash used in investing activities stood at minus EUR 3.3 million in the first nine months of 2016 (January to September 2015: EUR 22.8 million).

The main reason for this year-on-year fall was a cash inflow of EUR 29.9 million in 2015 from the disposal of Tomorrow Focus Publishing GmbH.

In addition, the figure for the first nine months of 2015 included cash outflows of EUR 1.3 million for investment in intangible and tangible assets at the Group's discontinued operations.

Net cash from financing activities stood at minus EUR 22.1 million in the period under review compared with minus EUR 27.1 million in the first nine months of 2015.

The above total for 2016 includes payments of EUR 3.1 million in settlement of cash-pool liabilities to jameda GmbH, which was deconsolidated in the previous year (first nine months 2015: EUR 3.1 million in settlement of cash-pool liabilities to Tomorrow Focus Publishing GmbH) together with the corresponding out-of-period transaction costs of EUR 3.1 million; cash outflows of EUR 14.5 million (first nine months 2015: EUR 20.3 million) in repayment of loans; and payments of EUR 2.1 million to settle earn-out obligations linked to the purchase of the remaining shares in WebAssets B.V. (first nine months 2015: earn-out payments of EUR 3.9 million linked to jameda GmbH).

As a result, cash and cash equivalents at the end of the third quarter of 2016 stood at EUR 33.7 million, up from EUR 21.5 million at the end of the same period in 2015.

2.2.2.2 Asset position

On the assets side of the consolidated balance sheet, non-current assets as at 30 September 2016 stood at EUR 139.0 million. This figure was almost unchanged compared with the 2015 year-end total of EUR 138.4 million.

At EUR 55.7 million, **current assets** as at 30 September 2016 were 33.0 percent lower compared with the figure of EUR 83.1 million as at 31 December 2015.

While trade receivables increased by EUR 5.2 million in the first nine months of 2016 for seasonal reasons, cash and cash equivalents in particular fell by EUR 30.0 million to EUR 33.7 million as a result of cash outflows, partly in settlement of loans totalling EUR 14.5 million (for details see above under section 2.2.2.2.1 Financial position).

At the same time, the assets of discontinued operations held for sale fell by EUR 0.9 million to EUR 0.0 million following the disposal of the assets of organize.me GmbH.

On the liabilities side of the consolidated balance sheet, equity as at 30 September 2016 decreased by 0.5 percent to EUR 168.1 million from the year-end figure of EUR 168.9 million.

As at 30 September 2016, the equity ratio stood at 86.3 percent compared with the year-end figure of 76.3 percent. This increase was mainly due to a sharp fall in debt.

At EUR 7.7 million, **non-current liabilities** were 7.2 percent lower as at 30 September 2016 and therefore slightly down on the year-end figure of EUR 8.3 million. This was mainly due to a revaluation of the non-current component of the long-term incentive plan at the end of the period and the reclassification of the tranche for financial 2013 as current liabilities.

As at 30 September 2016, **current liabilities** stood at EUR 18.9 million, a considerable 57.3 percent decline compared with the year-end total of EUR 44.3 million.

The main factor here was a reduction in liabilities to banks from EUR 15.2 million to EUR 0.0 million following the repayment of bank loans.

At the same time, other liabilities declined from EUR 11.9 million to EUR 5.1 million. This was mainly due to the settlement of earn-out obligations towards the pre-takeover shareholders of WebAssets B.V., payments linked to personnel liabilities in the form of bonuses and settlements, and the settlement of fees incurred in relation to the sale of jameda GmbH.

The reduction in liabilities to affiliated entities from EUR 3.4 million to EUR 0.0 million is due to settlement of the cash-pool liability towards jameda GmbH.

The figure for **total liabilities** ended the period under review 49.4 percent lower at EUR 26.6 million compared with the 2015 year-end figure of EUR 52.6 million.

Total assets fell by 12.1 percent from EUR 221.4 million at the end of 2015 to EUR 194.7 million as at 30 September 2016.

The relationship between items in the balance sheet shows a shift towards a higher equity ratio. Current liabilities are covered entirely by current assets, while non-current assets are covered entirely by equity and non-current liabilities.

3. EVENTS AFTER THE BALANCE SHEET DATE

Change to composition of Management Board at HolidayCheck Group AG – CFO Dr Dirk Schmelzer to step down on 31 March 2017

CFO Dr Dirk Schmelzer (49) will step down from the Management Board of HolidayCheck Group AG at his own request on 31 March 2017. The Supervisory Board has approved a request by Dr Schmelzer to end his contract early. Details of his successor will be announced shortly.

Dirk Schmelzer has held the position of Chief Financial Officer (CFO) at HolidayCheck Group AG since 1 February 2011. Over the last years he has played a key role in the company's transition towards an exclusive focus on the travel business. This involved the successful disposal of all non-travel brands, generating a total cash inflow of EUR 100 million for HolidayCheck Group AG. With an equity ratio of around 86 percent, the HolidayCheck Group has liquid assets of more than EUR 30 million with no outstanding bank loans.

The CFO will leave the company on very amicable terms to take up a new career challenge outside HolidayCheck Group AG.

Parship Elite Group repays vendor loan

On account of the sale of Parship Elite Group GmbH, the vendor loan granted by HolidayCheck Group AG to cover the remaining purchase price of EUR 6.0 million was repaid early, together with the agreed interest, in October 2016.

4. REPORT ON EXPECTED DEVELOPMENTS, OPPORTUNITIES AND RISKS

4.1 Report on expected developments

4.1.1 Expected macro-economic developments

For the current year, Deutsche Bank's Global Market Research unit anticipates moderate economic growth in the HolidayCheck Group's core sales markets. Inflation-adjusted gross domestic product (GDP) in the Netherlands is expected to grow by 1.6 percent. Deutsche Bank's analysts forecast inflation-adjusted growth in Belgian GDP of 1.3 percent. Again after adjusting for inflation, Austrian GDP is also expected to grow by 1.3 percent and Switzerland's GDP by 1.6 percent. According to the Deutsche Bank experts, the fastest growth will be in Germany, where inflation-adjusted GDP is expected to rise by 1.9 percent.

The GDP figures quoted above are based on estimates published by Deutsche Bank AG's Global Market Research unit on 5 October 2016.

4.1.2 Expected industry developments

In light of the sharp decline experienced by the industry in the first nine months of 2016, HolidayCheck Group AG now expects total industry revenue in the core sales markets served by its holiday portals to end the year between approximately 5 and 10 percent down on 2015. Further terrorist attacks, especially in Mediterranean holiday regions, and any continuation of political unrest, above all in Turkey, would probably extend the downward trajectory of industry sales that marked the first three quarters of this year. At the beginning of 2016, the company had anticipated moderate growth in its core sales markets.

At the same time, the company expects competitive pressures to remain high, at least in the short term, despite the bankruptcy of Unister Travel. In the medium term, a possible trend towards consolidation could lead to some easing of the competitive situation and consequently to a reduction in marketing expenditure as well as increasing revenue.

Although HolidayCheck AG is based in the Swiss town of Bottighofen, it generates most of its sales revenue in the euro area. However, important costs such as salaries and rents are paid in Swiss francs, so any appreciation in the Swiss franc vis-a-vis the euro will have a negative impact on the Group's earnings. In order to hedge this currency risk, the company entered into a number of currency forward contracts in January

2016. It also maintains cash holdings in Swiss francs to reduce its exposure to currency risk.

The above assessments of expected industry developments are based on the Group's own estimates.

4.1.3 HolidayCheck Group

Looking ahead at financial 2016, the Management Board has started and will continue to concentrate on laying the foundations for the sustainable and successful development of the HolidayCheck Group and its brands with a view to maximising and harnessing the market opportunities they offer.

For the financial year 2016, our forecast for the HolidayCheck Group is based on the expectations of macro-economic and industry developments in financial 2016 laid out in this report. The potential effects of legal and regulatory issues have not been factored in to these forecasts.

4.1.3.1 Revenue

In spite of the difficulties currently facing the industry, the conditions for positive revenue growth in the remaining months of financial 2016 remain quite good. One important factor in achieving this will be the moderate economic recovery forecast for the Group's core markets in the German-speaking region (Germany, Austria and Switzerland) and in the Benelux countries (Belgium, The Netherlands, Luxembourg). In addition, measures to strengthen organic investment in existing and new products and services at the portals operated by HolidayCheck und Zoover, especially in the field of package holidays, should begin to have a positive impact on the Group's revenue growth in the fourth quarter of 2016. At present it is not possible to estimate the likely impact of developments at Unister Travel GmbH over the medium to long term on existing competitive pressures in Germany. Unister Travel GmbH, the parent of various companies including the travel portal Ab-in-den-Urlaub.de, initiated insolvency proceedings in September.

The current widespread reluctance to book holidays in response to the tense security situation in major tourist regions, especially Turkey, is likely to weigh further on revenue growth.

In total, after adjusting for acquisitions and disposals, the Management Board believes that the revenue of the HolidayCheck Group could be increased in financial 2016 by a percentage figure in the middle single digits (and therefore above the industry average as in the first nine months) compared with the previous year's adjusted figure of EUR 103.1 million.

Looking further ahead to financial 2017 and beyond, greater investment in the products and services offered by our holiday and travel portals should provide a firm basis for the HolidayCheck Group to deliver sustainable revenue growth above the market average.

4.1.3.2 Profitability

In the view of the Management Board, the above-mentioned investment in products and services will have a positive impact on consolidated revenue and thus on the HolidayCheck Group's operating EBITDA in the medium to long term. For the current financial year, the Management Board expects operating EBITDA to at least reach the break-even point despite planned spending on investment and its strategy of increasing market share. Further information on operating EBITDA can be found in section 2.2.2.1.3 of this report under the heading Calculation of operating EBITDA from EBITDA.

4.1.3.3 Capital structure

With regard to its capital structure, the HolidayCheck Group has set itself the following objective for financial 2016:

As in the previous year, HolidayCheck Group AG aims to keep its equity ratio (equity / total capital x 100 percent) to at least 40 percent in the long term. The figure for financial 2015 was 76.3 percent.

4.1.4 Overall assessment of likely developments

In light of the sharp decline experienced by the industry in the first nine months of 2016, HolidayCheck Group AG now expects total industry revenue in its core sales markets to end the year as a whole around 5 to 10 percent down on 2015. We also expect the persistently high competitive pressures to continue.

However, partly in view of the significant increases in our share of the package holiday market over the first nine months, we anticipate that in percentage terms the Group's organic revenue in financial 2016 will rise year on year by an amount in the middle single digits.

The Management Board expects Group operating EBITDA to at least reach the break-even point despite planned investments in products and services and the strategy of increasing market share.

The potential effects of legal and regulatory issues have not been factored in to these forecasts. In response to the opportunities and risks outlined in the 2015 Group management report (from page 62 onwards), the actual results of the HolidayCheck Group (formerly Tomorrow Focus Group) may vary in either direction from this forecast.

4.2 Opportunities and risk report

Since the beginning of the current financial year there have been no significant changes within the HolidayCheck Group (formerly Tomorrow Focus Group) in terms of risks and opportunities that might affect its future performance.

A detailed review of material risks and opportunities can be found on page 62 of the annual report for 2015, which can be downloaded from the Internet at www.holidaycheckgroup.com under the heading Investor Relations/Reports. Printed copies are also available free of charge from the company on request.

5. EMPLOYEES

The average headcount for the HolidayCheck Group in the first three quarters of 2016 was 383 full-time equivalents (FTEs). The corresponding average figure for the same period of 2015 (continuing operations only) was 382 FTEs.

The HolidayCheck Group's personnel costs fell to EUR 24.4 million in the first nine months of 2016 compared with EUR 26.9 million in the same period of 2015.

6. NOTES AND FORWARD-LOOKING STATEMENTS

Definitions

All mentions of 'HolidayCheck Group AG' or 'HolidayCheck Group' in this management report relate to the HolidayCheck Group.

Forward-looking statements

This management report contains statements relating to future business and financial performance and future events or developments concerning the HolidayCheck Group that may constitute forward-looking statements. These statements may be identified by words such as 'expects', 'looks forward to', 'anticipates', 'intends', 'plans', 'believes', 'seeks', 'estimates', 'will', 'project' or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to shareholders and in media releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on current expectations and certain assumptions of the HolidayCheck Group management team, and are, therefore, subject to various risks and uncertainties. Numerous

factors, many of which are beyond the control of the HolidayCheck Group, nevertheless affect its operations, performance, business strategy and results and could cause the HolidayCheck Group's actual results, performance or achievements to be materially different from those expressed or implied in such forward-looking statements or anticipated on the basis of historical trends. These factors include in particular, but are not limited to, the matters described in section 4.2 of the 2015 annual report of the Tomorrow Focus Group (now the HolidayCheck Group) under the heading Risks.

Further information about risks and uncertainties affecting the HolidayCheck Group can be found in this annual report and in our most recent earnings release, both of which are available on our website at www.holidaycheckgroup.com. Should one or more

of these risks or uncertainties materialise, or should underlying assumptions prove incorrect, the actual results, performance or achievements of the HolidayCheck Group may vary materially from those described in the corresponding forward-looking statements as being expected, anticipated, intended, planned, believed, sought, estimated or projected. The HolidayCheck Group neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals shown, and percentages may not precisely reflect the absolute figures.

Additional information

In the financial year 2016, there were tax outflows of EUR 398 thousand (2015: EUR 2,708 thousand) and tax inflows of EUR 193 thousand (2015: EUR 23 thousand).

Notes

- 1) An amount of € 1 thousand (2015: € 4,235 thousand) from discontinued operations is included in the figure shown for amortisation, depreciation and impairment losses.
- 2) In financial 2015, there was a cash inflow resulting from the disposal of BurdaForward GmbH (previously: TOMORROW FOCUS Publishing GmbH) and its subsidiaries. The figure shown is derived from the amount resulting from the sales proceeds adjusted for cash disposed of.
- 3) To a large extent the amount shown for 2015 includes the transaction costs paid in connection with the disposal of BurdaForward GmbH (formerly TOMORROW FOCUS Publishing GmbH) and EliteMedianet GmbH.
- 4) In 2016, there was a cash outflow to balance cash pool obligations vis-à-vis jameda GmbH. In financial 2015, the item refers to the balancing of cash pool obligations of the disposed BurdaForward Group after its deconsolidation.
- 5) This item includes a subsequent purchase price payment of EUR 26 thousand relating to the sale of shares in jameda GmbH in financial 2015. Furthermore, the amount comprises earn-out payments of EUR 670 thousand relating to the sale of shares in Cellular GmbH in 2014. In financial 2015, the amount shown of EUR 42 thousand refers to subsequent purchase price payments in connection with the sale of shares in Cellular GmbH in financial 2014.
- 6) The amount shown for 2016 refers mainly to transaction costs paid in connection with the sale of shares in jameda GmbH.
- 7) The item refers to earn-out instalment payments in connection with the purchase of the remaining shares in WebAssets B.V. In financial 2015, the amount refers to maturing earn-out instalment payments related to the purchase of shares in jameda GmbH.
- 8) This item includes cash from continuing operations of EUR 63,702 thousand and cash from discontinued operations of EUR 5 thousand.

HOLIDAYCHECK GROUP AG, MUNICH, GERMANY

NOTES TO THE CONSOLIDATED

FINANCIAL STATEMENTS FOR THE

FIRST NINE MONTHS OF 2016

1. GENERAL DISCLOSURES

HolidayCheck Group AG (formerly Tomorrow Focus AG), a joint-stock corporation under German law with its registered office in Munich, Germany (also referred to below as 'HCG' or 'the company'), is the parent company of the HolidayCheck Group, an Internet group with operations in Central Europe.

2. PREPARATION OF THE FINANCIAL STATEMENTS - ACCOUNTING BASIS AND STANDARDS

This interim consolidated report was drawn up in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and adopted by the European Union. In line with the provisions of IAS 34 Interim Financial Reporting, the consolidated interim report condenses or omits certain information and disclosures that are usually contained in annual financial reports.

Accordingly, the financial statements contained in this interim report do not contain all the information and disclosures that are required under IFRS rules for the consolidated financial statements at the end of the financial year.

The accounting and valuation methods adopted for these interim consolidated financial statements are essentially the same as those applied to the full consol-

idated financial statements at the end of the previous financial year. A full description of the accounting principles used can be found in the notes to the financial statements in our 2015 annual report. The report can also be downloaded at www.holidaycheckgroup.com.

When preparing the interim consolidated financial statements, the Management Board has to make assumptions and estimates that affect the level and recognition of balance-sheet assets and liabilities, income and expenditure and contingent liabilities. All such assumptions and estimates are based on premises that were valid on the reporting date and as a general rule were calculated using the same methods as those applied for the 2015 Group annual report. The actual values may differ from these assumptions and estimates if developments subsequently vary from those anticipated on the balance sheet date.

Although some parts of our business are seasonal, this does not affect the comparability of the consolidated quarterly financial statements as a whole. Any major effects during the reporting period are noted in the summary of the interim report or in the subsequent explanations.

The consolidated financial statements have been drawn up in euros. Unless otherwise indicated, all amounts are shown in EUR thousand (EUR '000).

2.1 Accounting method and valuation

There follows a list of new or revised IASB standards that became mandatory in financial 2016.

NEW OR REVISED STANDARDS OF IASB

	APPLICABLE FROM ¹⁾	ENDORSED BY EU
Amendments to IFRS 11 Accounting for Acquisitions of Interests in Joint Operations	1 January 2016	Yes
Amendments to IAS 1 Disclosure initiative	1 January 2016	Yes
Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016	Yes
Amendments to IAS 16 and IAS 41 Agriculture: Bearer Plants	1 January 2016	Yes

Annual Improvements to International Reporting Standards (2012-2014 cycle)	1 January 2016	Yes
Amendments to IFRS 10, IFRS 12 and IAS 28: Applying the Consolidation Exception	1 January 2016	Yes

1) Date first applicable in EU

The changes had no significant impact on the consolidated financial statements of HCG.

The following standards have been adopted by the IASB but were not applied to the shorter interim con-

solidated financial standards as at 30 June 2016 as they are not yet mandatory. HCG does not generally apply standards before they become mandatory even though certain standards provide for this option.

NON-APPLIED NEW/OR REVISED STANDARDS OF IASB

	APPLICABLE FROM ¹⁾	ENDORSED BY EU
Amendments to IAS 12: Recognition of Deferred Tax Assets for Unrealised Losses	1 January 2017	No

Amendments to IFRS 4: Applying IFRS 9 in conjunction with IFRS 4 'Insurance Contracts'	1 January 2018	No

1) Date first applicable in EU

The current view of HolidayCheck Group AG is that the above standards and interpretations will have no impact or only a minor impact on the Group's income, financial situation and assets.

income beginning in financial 2016. The new structure is designed to provide a clearer and more informative picture of the Group's business activities. The figures for the previous year have been adjusted accordingly.

2.2 IAS 1 and IAS 8 disclosures

Changes to the structure of the consolidated statement of income

Following the Group's successful strategic realignment, the Management Board took the decision to change the structure of the consolidated statement of

Under this new management approach, future reports will additionally contain the key indicators 'total operating income' and 'EBITDA'.

To facilitate a year-on-year comparison, the following adjustments have been made to the consolidated statement of income for the first nine months of 2015: see table on next page.

1) Previously, marketing costs were shown under the heading 'other expenses'. Beginning in financial 2016, however, they will be shown as a separate item ('marketing costs') in order to reflect their greater importance following the Group's realignment.

2) Previously, 'other personnel costs' were shown under 'other expenses' but are now recognised under 'personnel costs'. Under the new structure, 'personnel costs' will be separated into 'current benefits' and 'long-term incentive plans and pensions'.

3) The item 'materials costs' (excluding work and services purchased) was previously shown as a separate item. Following the Group's realignment, however, it is now less important and will therefore be shown in the new structure under 'other expenses'.

4) Under the new structure, the item 'other expenses' will include 'materials costs' (see footnote 3) and 'other taxes' (see footnote 5). 'Marketing costs' (see footnote 1) and 'other personnel costs' (see footnote 2) will be shown separately or included in 'personnel costs' respectively.

5) 'Other taxes' will now be shown under 'other expenses' rather than as a separate item.

Change to procedure for recognising intragroup transactions between continuing and discontinued operations

Change to procedure for recognising intragroup transactions between continuing and discontinued operations

Intragroup transactions with discontinued operations were previously eliminated by the company on the basis of an economic perspective. In terms of presentation, no adjustment was made compared with the consolidated figures in cases where trade relationships with discontinued operations or with third parties were ended in respect of future periods. If trade relationships between continuing and discontinued operations were maintained after disposal, the situation was presented on a pre-consolidation basis (gross presentation).

The International Financial Reporting Interpretations Committee (IFRIC) published an agenda decision on the presentation of intragroup transactions with discontinued operations on 12 January 2016. According to this agenda decision, neither IFRS 5 nor IAS 1 contains rules that take precedence over the rules on consolidated financial statements in IFRS 10. It specifies that two procedures are admissible for the presentation of intragroup transactions between continuing and discontinued operations:

Procedure 1

Eliminate the intragroup transactions in accordance with IFRS 10.B86(c) without adjustments.

Procedure 2

Eliminate the intragroup transactions taking account of adjustments in order to show the impact of the transactions on the continuing operation after disposal of the discontinued operation in accordance with IFRS 5.30 (net presentation).

In the year under review, intragroup transactions within the HolidayCheck Group were eliminated using the second of these two procedures. The retrospective adjustment had no impact on net profit/loss from discontinued operations. In the balance sheet it led to a reduction of EUR 4,900 thousand in the receivables from affiliated entities and a corresponding reduction in liabilities related to held-for-sale assets from discontinued operations as well as a reduction of EUR 5,581 thousand in liabilities to affiliated entities and a corresponding reduction in held-for-sale assets from discontinued operations.

3. SEGMENT REPORTING

Business segment reporting is laid out in such a way as to conform to the method of in-house reporting to the principal decision-making body. The latter is responsible for decisions on the allocation of resources to business segments and for the evaluation of their profitability. The Management Board of HCG constitutes the principal decision-making body.

Over the course of financial 2015, as part of a strategy of realignment, HCG sold all its operating companies outside the Travel segment with the exception of MeteoVista and organize.me.

Starting in financial 2016, the Management Board will therefore manage the Group on the basis of key indicators for the entire business rather than on a segment basis. As such, the business will no longer be divided into segments. Accordingly, this interim report does not contain a separate segment report.

4. REPORTING ENTITY

The condensed interim consolidated financial statements include all companies over which HolidayCheck Group AG exerts direct or indirect control in terms of financial and business policy.

The above table lists all the companies included in the interim consolidated financial statements of HolidayCheck Group AG: see table above.

Tomorrow Travel Solutions GmbH changes trading name

The change of trading name from Tomorrow Travel Solutions GmbH to HolidayCheck Solutions GmbH was entered in the commercial register on 8 August 2016.

Merger by amalgamation of TF Digital GmbH and organize.me GmbH

Following the merger agreement signed on 25 July 2016, the amalgamation of organize.me GmbH (Munich, Germany) and TF Digital GmbH (Munich, Germany) with HolidayCheck Group AG were entered into the commercial register on 31 August 2016 with retrospective effect from 1 January 2016.

HolidayCheck Group AG opts for early settlement of earn-out obligations from the purchase of additional shares in WebAssets B.V.

In February 2016 HolidayCheck Group AG concluded a settlement agreement with the pre-takeover shareholders of WebAssets B.V. in respect of its remaining earn-out obligations. Under the terms of the agreement, HolidayCheck Group AG settled all its obligations (except a retained amount of EUR 100 thousand as security) through a payment of EUR 2,100 thousand. The obligation was already valued at the repayment figure in the 2015 financial statements.

5. DISCONTINUED OPERATIONS AND SALE OF SUBSIDIARIES

a) Sale of and withdrawal from publishing business

The annual report of HolidayCheck Group AG for the financial year 2015 contains full details of its withdrawal from the publishing business. These details are included in the information and disclosures presented below on account of the obligation to provide comparative figures for the previous year.

b) Withdrawal from subscription business

The annual report of HolidayCheck Group AG for the financial year 2015 contains full details of its withdrawal from the subscription business. These details are included in the information and disclosures presented below on account of the obligation to provide comparative figures for the previous year.

Settlement agreement with Parship Elite Group GmbH

An agreement was concluded on 30 August 2016 to settle definitively all the outstanding claims of both parties. The agreement led to purchase price adjustments of EUR 463 thousand and ex post selling costs of EUR 154 thousand.

HolidayCheck Group AG sells assets of subsidiary organize.me GmbH in two asset deals

On 1 February 2016 HolidayCheck Group AG sold all the main assets of organize.me GmbH in two asset deals for a total of EUR 1,080 thousand. The company's business-to-business (B2B) activities and assets were sold to a third party (EUR 1,000 thousand), whereas parts of its business-to-customer (B2C) operations will be reused within the Group (EUR 80 thousand). The B2C online storage services and app were closed down on 29 February 2016.

As at 31 December 2015, these assets were classed as 'held for sale'. Following the sale, however, this classification was no longer applicable.

c) Withdrawal from B2B activities in 2014

The annual report of HolidayCheck Group AG for the financial year 2014 contains detailed information on the withdrawal from B2B activities. Under the terms of an agreement dated 12 April 2016, the buyers agreed to settle their earn-out obligations before the specified date. This produced subsequent income of EUR 670 thousand.

d) Impact on the consolidated financial statements

Given their importance to the earnings, asset and financial position of HolidayCheck Group AG, the above-mentioned subsidiaries and Group business units that have been sold constitute discontinued operations within the meaning of IFRS 5.

Owing to their classification as discontinued operations, the former Publishing and Subscription segments have been wound up. Their contribution to earnings has been combined and shown separately as consolidated net profit/loss from discontinued operations.

The following table shows a breakdown of consolidated net profit/loss from discontinued operations:

1) Adjustment according to IAS 8, see note 2.2.

In the first three quarters of 2016, consolidated comprehensive income from continuing operations (including other comprehensive income) stood at minus EUR 2,867 thousand. Comprehensive income from discontinued operations was EUR 18,186 thousand.

There is no change in the presentation of cash flows attributable to the operating, investing or financing

activities of discontinued operations. These are shown in the consolidated statement of cash flows for the first nine months of 2016 and 2015. As required, cash flows from discontinued operations are also presented in detail in the notes to the financial statements.

The following table contains a breakdown of cash flows from discontinued operations:

6. NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Intangible assets

Intangible assets include capitalised goodwill and other own work capitalised for the development of mobile applications and website redesign. In respect of own work capitalised a total of EUR 2,906 thousand was recognised for the period up to 30 September 2016 (30 September 2015: EUR 2,475 thousand).

Equity

Changes in the equity of the parent company's owners are shown in the consolidated statement of changes in equity.

Authorised capital

At the general meeting of shareholders on 12 June 2013, it was decided to nullify Authorised capital 2010/I, last valued at EUR 21,204,957 and at the same time to authorise the Management Board, subject to Supervisory Board approval, to undertake one or more increases in the company's share capital until 11 June 2018 of up to EUR 14,578,407 in exchange for cash and/or non-cash contributions (Authorised capital 2013/I). The Management Board is authorised to exclude shareholders' statutory subscription rights.

Contingent capital

The general meeting of shareholders of 16 June 2015 adopted resolutions to cancel Contingent capital 2010/I totalling EUR 4,842,070 and create Contingent capital

2015 of EUR 11,600,000. This contingent capital is intended to service conversion and option rights. The authorisation is valid up to 15 June 2020.

Treasury shares

The general meeting of shareholders of 16 June 2015 renewed the company's authorisation, granted by the general meeting of shareholders of 16 June 2010 and expired on 15 June 2015, to acquire its own shares. The Management Board is therefore authorised to acquire shares in the company worth up to a total of 10 percent of its share capital. The authorisation is valid up to 15 June 2020.

Share-based remuneration

Since 2011, virtual shares have been issued to members of the Management Board and other employees of HCG and its subsidiaries under a long-term incentive programme (LTIP). The virtual shares entitle the holder to a cash payment based on the average share price over the last one hundred stock exchange trading days up to the relevant payment date. There is no automatic entitlement to shares in HolidayCheck Group AG. Under the terms of the LTIP, virtual shares are granted in annual tranches (up to and including 2015). There is no link between these tranches.

The following table shows the amounts recognised for the LTIP in the interim consolidated financial statements for the first nine months of 2016: (see table on next page).

OTHER LIABILITIES

	31 DECEMBER 2015 EUR '000	REVALUATION EUR '000	30 SEPTEMBER 2016 EUR '000
Liabilities from share-based payments with cash settlement	2,140	-349	1,791
Total	2,140	-349	1,791

Derivative financial instruments

The Group employed currency forwards to hedge cash flows denominated in Swiss francs (CHF) against possible exchange rate risks. The future transactions covered by these hedges will be realised at different points over the rest of the financial year.

Since these transactions meet the conditions for recognition as cash-flow hedges and appear in the balance sheet accordingly, the corresponding positive fair value of the effective portion of the hedging instruments (EUR 14 thousand) was recognised directly in equity.

The accumulated profit or loss from changes in the fair value of hedging transactions, as shown in the reserve for hedging transactions, was then transferred to the statement of income when the underlying transaction itself affected the statement of income or when the cash flows associated with the underlying transaction were recognised in profit or loss or if the hedged transaction was cancelled.

Currency forwards totalling EUR 97 thousand matured in the first nine months of 2016 and were therefore recognised in the statement of income (2015: EUR 0 thousand). Changes to the fair value of the remaining currency forwards came to minus 13 thousand (2015: minus EUR 96 thousand).

Up to 30 September 2016, a corresponding unrealised gain of EUR 69 thousand (2015: an unrealised loss of EUR 79 thousand) was recognised under other comprehensive income with due regard for deferred tax of minus EUR 15 thousand (2015: EUR 17 thousand).

Liabilities to banks

The table shown below gives a breakdown of the liabilities to banks.

The remaining tranches of the bonded loan were repaid as scheduled on 9 March 2016 together with the due interest.

The syndicated loan agreement is due to expire in 2019 and until then provides a flexible arrangement allowing HCG to borrow up to EUR 50,000 thousand. As at the reporting date, HolidayCheck Group AG had drawn EUR 0 thousand from the total available.

Financial expenses

The financial expenses of EUR 295 thousand (first nine months 2015: EUR 1,312 thousand) relate to interest expenses. These also include expenses from compounding in the sum of EUR 10 thousand (first nine months 2015: EUR 61 thousand) and financing-related interest expenses of EUR 285 thousand (first nine months 2015: EUR 1,239 thousand).

Additional disclosures on financial instruments

The following table shows the carrying amounts and fair values of financial assets and financial liabilities.

FINANCIAL ASSETS AND FINANCIAL LIABILITIES

	CARRYING AMOUNT EUR '000		FAIR VALUE EUR '000

Derivative instruments	14	0	14	0
Financial liabilities				
Derivative instruments	0	93	0	93
Contingent consideration	100	2,200	100	2,200

As at 30 September 2016, the fair value of cash flow hedges of EUR 14 thousand is shown under financial assets. The term of the interest rate swap shown in the previous year's balance sheet at EUR 93 thousand was identical to that of the bonded loan and therefore ended on 9 March 2016.

Financial instruments recognised at fair value are divided into various classes in accordance with IFRS 7.

These are known as the three levels of the fair value hierarchy and are defined as follows:

- level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities to which an entity has access on the balance sheet date;
- level 2 inputs: other inputs (i.e. not quoted level 1

prices) that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from other prices);

- level 3 inputs: information for the asset or liability that is not based on observable market data (unobservable inputs).

There have been no transfers between the different levels of the fair value hierarchy.

The following table below shows the hierarchy of financial instruments measured at fair value as at 30 September 2016.

The table on the next page shows the changes in the recurrently assessed value of the financial liabilities attributed to level 3 of the measurement hierarchy.

HIERARCHY OF FINANCIAL INSTRUMENTS

CHANGES IN THE RECURRENTLY ASSESSED VALUE OF THE FINANCIAL LIABILITIES

	2016 EUR '000
As at 1 January	2,200
Effect from disbursement of earn-out obligation	-2,100
Total profit or loss - recognised in financial expenses	0
As at 30 September	100

The figure for contingent consideration includes an earn-out obligation of EUR 2,200 thousand from the acquisition of additional shares in WebAssets B.V. Following a payment of EUR 2,100 thousand in February 2016, all the corresponding claims have now been settled (with the exception of EUR 100 thousand retained as security).

There has been no change from 31 December 2015 in the classes into which assets and liabilities have been broken down. Valuation methods and key assumptions are equally unchanged. These are detailed in section 10.23 of the notes to the 2015 consolidated financial statements, which also contains (under section 10.22) a detailed overview of the financial instruments employed by HCG, financial risk factors and the management of financial risks.

7. RELATED PARTIES

Transactions with related entities primarily involved services as defined by IAS 24.21c. All such trans-

actions were concluded on arm's length basis.

In total, transactions with related parties in the first nine months of the financial year involved trade receivables valued at EUR 447 thousand and trade payables valued at EUR 681 thousand. The discontinued operations of the former Subscription segment accounted for trade receivables valued at EUR 0 thousand and trade payables valued at EUR 7 thousand.

As at 30 September 2016 receivables and payables from current transactions with related parties amounted to EUR 88 thousand and EUR 34 thousand respectively.

8. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

On account of the sale of Parship Elite Group GmbH, the vendor loan granted by HolidayCheck Group AG to cover the remaining purchase price of EUR 6,000 thousand was repaid early, together with the agreed interest, in October 2016.
