Forward Looking Statements

This presentation and the accompanying oral presentation contain forward-looking statements that are based on our management's current expectations and assumptions and on information currently available to management. Forward-looking statements include all statements other than statements of historical fact contained in this presentation, including, but not limited to, information concerning our business plans and objectives, potential growth opportunities, product development, regulatory approvals, market potential, efficiencies, competitive position, and industry environment, among other statements.

All statements in this presentation and in the conference call referenced above that are not historical are forward-looking statements, including, among other things, statements relating to our expectations regarding future financial performance and business trends, our future growth, backlog, sales and marketing of our products, market size and expansion, product development, the timing of FDA filings or approvals, including the DMFs of ANP, the timing of product launches, acquisitions and other matters related to our pipeline of product candidates, the timing and results of clinical trials, our share buyback program, and other future events, such as the impact of the COVID-19 pandemic including its variants, the Russia-Ukraine conflict and resulting macroeconomic conditions, such as inflation and rising interest rates, and related responses of business and governments to the pandemic and international conflict on our operations and personnel, and on commercial activity and demand across our business operations and results of operations. These statements are not facts but rather are based on Amphastar's historical performance and our current expectations, estimates, and projections regarding our business, operations, and other similar or related factors. Words such as "may," "might," "will," "could," "would," "should," "anticipate," "predict," "potential," "continue," "expect," "intend," "plan," "project," "believe," "estimate," and other similar or related expressions are used to identify these forward-looking statements, although not all forward-looking statements contain these words. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties, and assumptions that are difficult or impossible to predict and, in some cases, beyond Amphastar's control. Actual results may differ materially from those in the forward-looking statements as a result of a number of factors, including those described in Amphastar's filings with the Securities and Exchange Commission, including in our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC on March 1, 2023. In particular, the extent of COVID-19, including its variants, the Russia-Ukraine conflict and resulting macroeconomic conditions, such as inflation and rising interest rates, impacts on our business will depend on several factors, including the actions taken by governments, businesses, and consumers in response, which continues to evolve and remain uncertain at this time. You can locate these reports through our website at <http://ir.amphastar.com> and on the SEC's website at www.sec.gov. The forward-looking statements in this presentation speak only as of the date of the presentation. Amphastar undertakes no obligation to revise or update information or any forward-looking statements in this presentation to reflect events or circumstances in the future, even if new information becomes available or if subsequent events cause our expectations to change.

You should not rely upon forward-looking statements as predictions of future events. Although our management believes that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee that the future results, levels of activity, performance or events and circumstances described in the forward-looking statements will be achieved or occur as forward-looking statements are inherently susceptible to uncertainty and changes in circumstances as with any projections or forecasts. Moreover, neither we, nor any other person, assume responsibility for the accuracy and completeness of the forward-looking statements. Any forward-looking statements made by us in this presentation speak only as of the date of this presentation, and we undertake no obligation to update any forward-looking statements for any reason after the date of this presentation, except as required by law.

Company Framework

Fully Integrated Business Model

- Extensive in-house product development capabilities
 - Strong product development
 - State-of-the-art instruments
 - Animal studies
 - Clinical research team

- Fully integrated back end manufacturing capabilities
 - API and starting materials
 - Key components

- Complete front end integration
 - Marketing
 - Distribution

Product Development

**API / Key
Components
Manufacturing**

**US Based Finished
Product
Manufacturing**

Marketing

Distribution

- Control over quality and compliance throughout the product development and manufacturing cycle

Focus on Products With High Technical Barriers

Products with:

- Large markets
- High technical barriers to entry

Focused on:

- Complex Generics
- Biosimilar
- Interchangeable
- Proprietary

High Technical Barriers to Entry

- Scarcity of API requires unique synthetic or rDNA capabilities
- Characterization for complex molecules
- Immunogenicity studies for proteins and complex molecules
- Delivery technologies: Injectable, MDI, IN, and sustained release
- Particle engineering from nm to μm
- Innovative formulations
- Large molecule product development
- Difficult or complex manufacturing processes

Amphastar Facilities

Vertically integrated from R&D to clinical trials,
manufacturing, marketing, and distribution

Milestones of Pipeline Development

Pipeline

ANDAs: 8

- Filed: 3
- Pending Launch: 1
- In Development:
 - 1 Injectable
 - 4 Inhalation

Insulin Biosimilar: 3

NDA: 5

Glucagon

Glucagon Emergency Kit for Low Blood Sugar

- **Key:** Highly purified peptide
- **Regulatory Pathway:** ANDA
- **Indication:** Hypoglycemia
- **Description:**
 - Injectable
 - Emergency use
 - Combination product

Primatene MIST®

Epinephrine Inhalation Aerosol 0.125 mg per spray

- **Key:** Proprietary Formulation
- **Regulatory Pathway:** NDA
- **Indication:** Intermittent Asthma
- **Description:**
 - Asthma inhaler
 - OTC
 - MDI
 - Combination product

Enoxaparin

Enoxaparin Sodium Injection, USP

- **Key:** Complex Generic
- **Regulatory Pathway:** ANDA
- **Indication:** Deep Vein Thrombosis
- **Description:**
 - Polysaccharide
 - Injectable
 - Combination product

Amphadase®

Hyaluronidase Injection, USP

- **Key:** Protein
- **Regulatory Pathway:** NDA→BLA
- **Indication:** Adjuvant
- **Description:**
 - Injectable

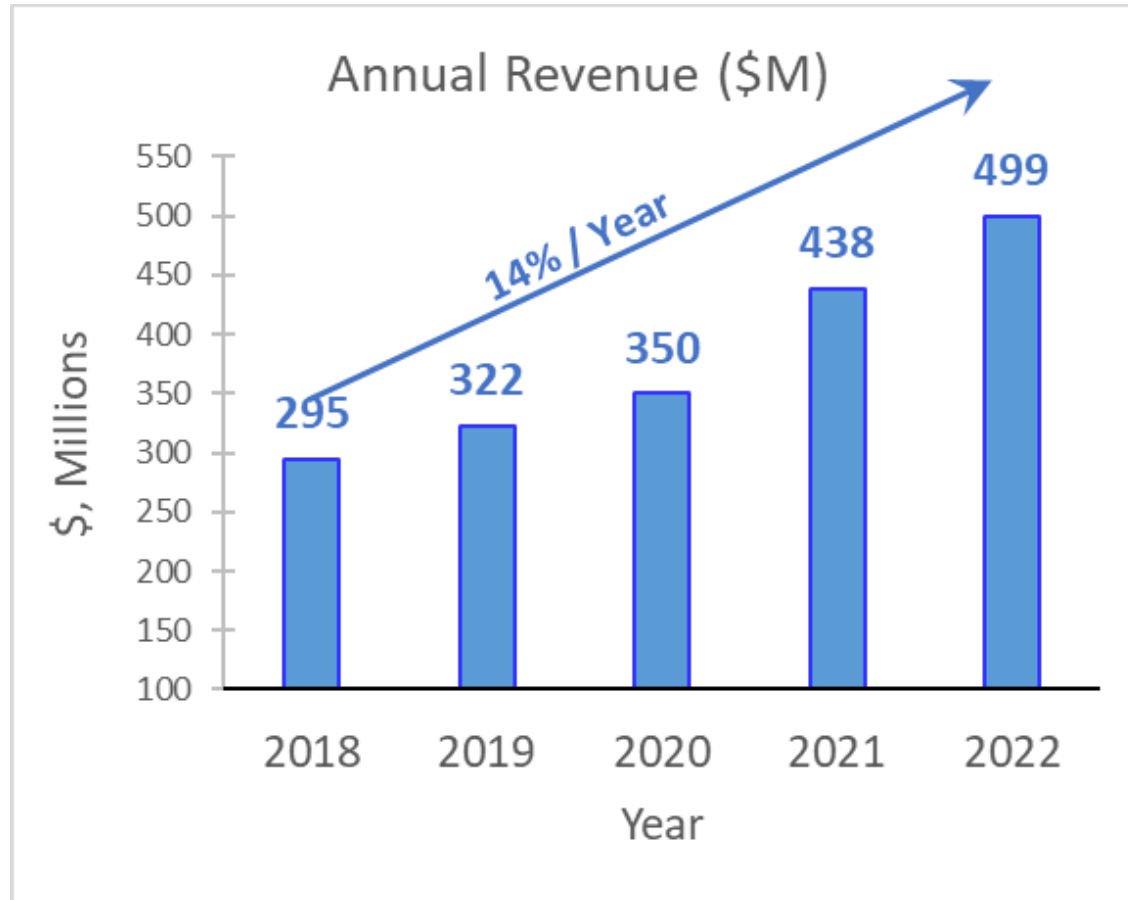

Commercial Product Portfolio

- Diverse core of over 20 commercial products
 - Injectable and MDI products; including complex, combination products
 - Consistent revenue and cash flow
 - Indications include: deep vein thrombosis, asthma, opioid overdose, pain management, anesthesia, and hypoglycemia
-
- Glucagon
 - Lidocaine Injection and Jelly
 - Vitamin K1
 - Naloxone
 - Primatene MIST®
 - Epinephrine PFS & MDV
 - Cortrosyn®
 - Enoxaparin
 - Regadenoson
 - Ganirelix
 - Vasopressin

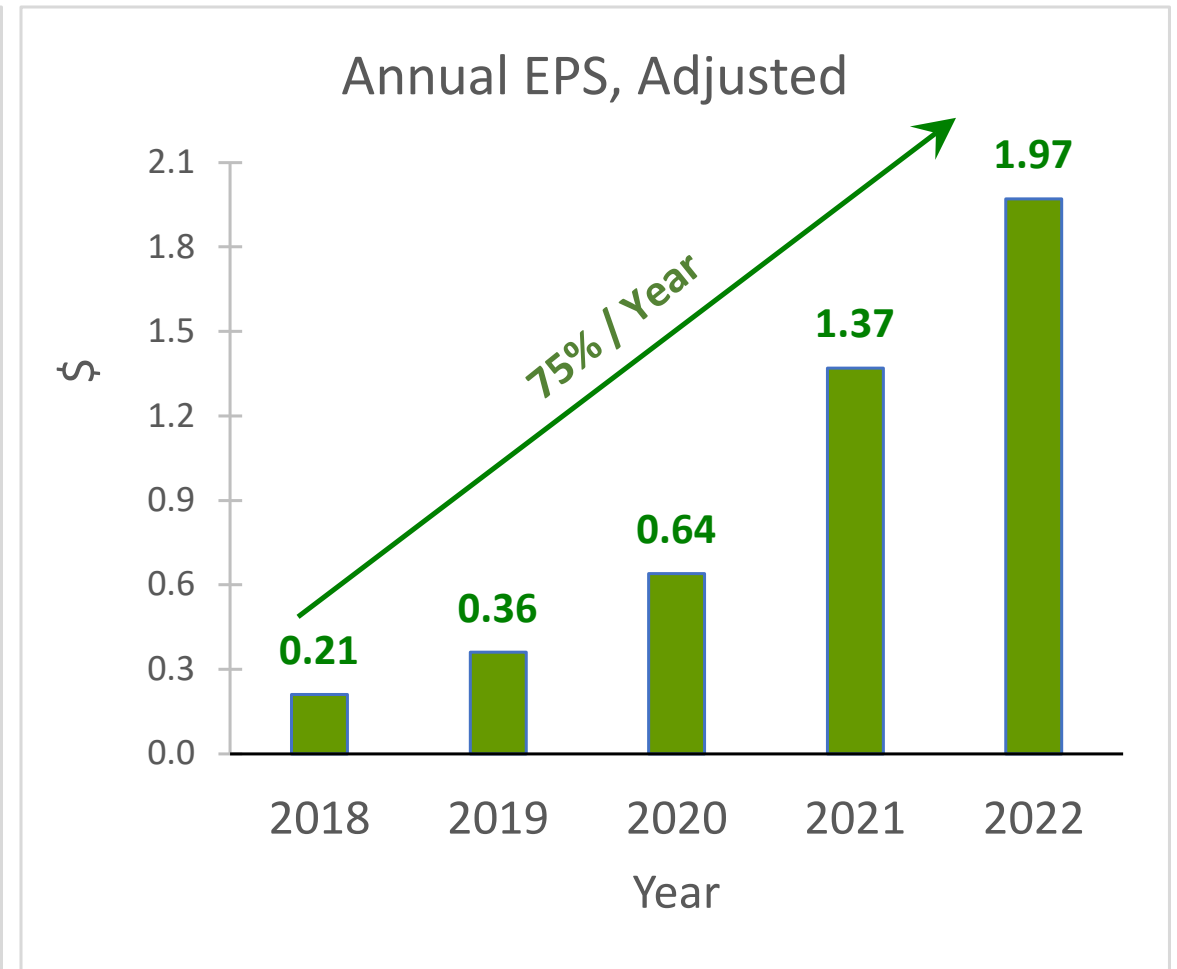

Sales and Marketing

Sales and Gross Profit Annual Trend

Margin Rate and Adjusted EPS Annual Trend

Recent Quarter Trend: Sales & Gross Profit

Existing Products Provide Strong Base

Diversified Revenue

2014

- Enox. Lidocaine Naloxone Insulin API
- Vita K Epi Other Pharma

2022

- Enox. Primatene MIST® Epi Glucagon
- Lidocaine Vita K Naloxone Insulin API
- Other Pharma

Primatene MIST®

- Primatene MIST®, a proprietary and patent-protected over-the-counter epinephrine inhalation product
- The only FDA approved asthma inhaler available OTC, launched Dec 2018
- Multiple scientific articles were published in support of Primatene MIST®
- Intensive cardiovascular studies >40,000 data points
- US Adult asthma patients: 20 million per CDC*

Primatene MIST[®] Sales Trend: In-Store Weekly Sales in UNITS

Primatene MIST[®] sales target of \$100 Million in 2024

R&D and Pipeline

Focused on R&D Investment

- Strategic focus to make substantial R&D investments to expand our product portfolio
- Diverse pipeline development with flexibility and scalability for sourcing API, starting material, and research under our vertically – integrated platform
- Emphasis and investment in R&D differentiates us from our competitors as our focus is on the long-term growth of our company
- Fully covered R&D team from early stage to clinical trial and from laboratory to scale-up

Self-funded R&D investment of approximately \$330 million in the recent 5 years

Amphastar Nanjing Pharmaceuticals (ANP) Overview

- Established to provide APIs and starting materials to Amphastar
- Current portfolio of APIs and starting materials
 - 4 FDA approvals for Amphastar's NDAs/ANDAs
 - 17 DMFs on file with the FDA for Amphastar's pipeline candidates
 - Several additional DMFs in development

Pipeline – ANDAs with Technical Barriers

Generic Pipeline, 8 Candidates with Technical Barriers

- **Technical platforms to be used:**

Characterization of complex molecules, immunogenicity, peptide and protein product development and production, particle engineering, sustained-release and novel formulation

ANDA Type	Product Code	Current Stage	*IQVIA Sales
Injectable	AMP-009 (Regadenoson)	Approved; Launched April 2023	+\$600 Million
	AMP-002	GDUFA Q2 2023	+\$500 Million
	AMP-015 (Teriparatide)	CRL received; planned response Q2 2023	+\$600 Million
	AMP-018	Stability/clinical trials	+\$2.8 Billion
Inhalation	AMP-008	CRL received and Responded; GDUFA Q3 2023	+\$6 Billion
	AMP-007	Planned Filing Q3 2023	
	AMP-016	Stability/clinical trials	
	AMP-017	Stability/clinical trials	
	AMP-022	Development	

Diabetes Portfolio

- First and only FDA approved generic Glucagon
- Covers the full spectrum of the insulin from rapid to long acting
- AMP-004 BLA planned filing in 2023
- \$11 Billion in IQVIA sales as of March 31, 2023, ~125 million of units of both pens and vials

Amphastar Factors in Achieving Interchangeability:

- **Demonstrated technological platform to achieve high-purity**
 - *Proven with Hyaluronidase, Enoxaparin and Glucagon approvals*
- **Company's sophisticated characterization technology and achievements of highly – purified peptides (with rDNA origin)**
- **API platform is sourced in-house**
 - *Amphastar France and Amphastar Nanjing*

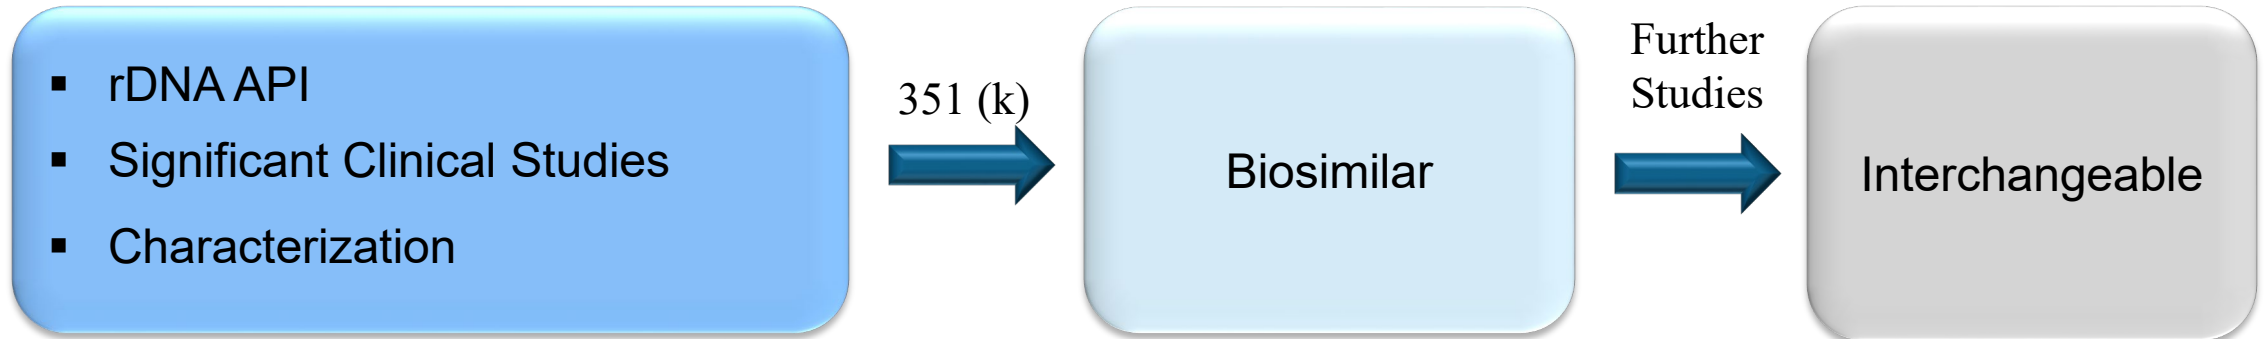

Favorable FDA Regulatory Pathways / Guidance:

- **FDA Guidance making comparative clinical immunogenicity unnecessary if extended characterization and highly-purified API are both achieved**
 - *Reduces number of clinical trials necessary*
 - *Lowers total cost and time of the clinical program*

Current Regulatory Pathways for Interchangeable Biosimilar Insulin

Regulatory Strategy for Insulin Products: Interchangeability

A. FDA regulatory pathway for recently approved product

B. Amphastar targeted FDA regulatory pathway

Pipeline – Proprietary Pipeline, New Drug Applications (NDAs)

Developed under Amphastar: A platform of proven R&D and technological strengths

AMP-012
Intranasal Naloxone

- Approved March 8, 2023
- Planned launch Q3 2023

AMP-019
Intranasal Epinephrine

- Patent pending

- Three early stage products

Pipeline Evolution

Amphastar's pipeline projected to advance with more focus on proprietary and biosimilar products

2021 Pipeline

Projected 2025 Pipeline

Highlights and Catalysts

Capitalization as of March 31, 2023

(\$ 000s)

Cash, cash equivalents, restricted cash, and short-term investments	\$195,327
Long-term debt, including current portion	\$75,040
Total stockholders' equity	\$548,577

Growth Drivers in 2023 and Upcoming Milestones

Key Growth Drivers in 2023

- **Glucagon Injection Kit**
 - *Strong sales since launched in Feb. 2021*
 - *Increased market opportunity*
 - *Increased capacity approved*
- **Regadenoson launched April 2023**
- **Primatene MIST®**
 - *Nationwide TV, Radio and Digital Advertising driving weekly sales*
 - *Physician sampling program*
 - *Price increase January 2023*

Key Milestones 2023

Filings

- **AMP-007 planned filing Q3 2023**
- **AMP-004 planned BLA filing 2023**
- **AMP-015 (Teriparatide) CRL received; planned response Q2 2023**

Expected Approvals

- **Intranasal Naloxone approved; planned launch Q3 2023**
- **AMP-002 CRL received; GDUFA Q2 2023**
- **AMP-008 CRL received; GDUFA Q3 2023**
