Alpha airport building, Gdańsk:

HOCHTIEF Polska completed the Alpha airport building in the Polish city of Gdańsk in a period of 18 months. The office building with its numerous sustainable features has already received LEED Gold certification.

Dear Shareholders and friends
 of HOCHTIEF,

Marcelino Fernández Verdes, Chairman of the Executive Board

HOCHTIEF delivered a strong profit performance in the first quarter of 2022 and further order book growth, notwithstanding the significant challenges that the start of the year has brought with it. Close collaboration with our clients and partners together with good organization and logistics enabled us to successfully continue our project activities. We have also made excellent progress with our offer to buy out the minorities of our Australian business, CIMIC, and launched our Sustainability Plan 2025.

I am very proud of our 34,000 employees who once again demonstrated great flexibility, fortitude and discipline. Furthermore, I would like to acknowledge the enormous solidarity shown by our HOCHTIEF colleagues in various European countries who have been actively welcoming and supporting refugees fleeing from the tragic events in Ukraine.

During Q1 2022, we accelerated our ESG focus with the approval of our **Sustainability Plan 2025** and we have announced our target to be climate-neutral in 2045. The Executive Board, which now includes the position of a dedicated Chief Sustainability Officer, is leading our twin transition: green and digital, which is a key element of our strategy.

- Offer for CIMIC minorities: Over 96% stake achieved in early May 2022; meeting threshold for follow-on compulsory acquisition (squeeze-out)

yoy = year on year qoq = quarter-on-quarter LTM = last twelve months

Focusing specifically on the financial performance, **nominal net profit** rose by 23%, or EUR 20 million, in Q1 2022 to EUR 106 million on sales up 8% at EUR 5.3 billion. **Operational net profit** increased by EUR 19 million to EUR 118 million, 19% higher year on year.

Operational PBT increased by EUR 22 million, or 14%, to EUR 179.5 million driven mainly by our Asia Pacific division and Abertis. **Margins** remained robust across the Group with HOCHTIEF's operational PBT margin steady at 3.3% pre-Abertis. The profit contribution from our toll road operator investment increased by EUR 8 million year on year to EUR 5 million with Q1 2022 traffic volumes above the Q1 2019 pre-Covid level.

The net **operating cash outflow** shown in our figures reflects the characteristic seasonality of the first quarter of the year as well as a significant impact from forex movements. Looking at the last twelve months, to eliminate seasonality, HOCHTIEF achieved a solid performance with free cash from operating activities of EUR 648 million, pre-factoring, a EUR 79 million year-on-year increase. Net operating capex was stable at EUR 20 million.

At the end of March 2022, HOCHTIEF had a **net debt position** of EUR 351 million. Adjusting for the variation in factoring during the last twelve months as well as the EUR 364 million investment in CIMIC shares, the Group would show a net cash position of EUR 249 million; the year-on-year change on this comparable basis shows an increase in net cash of EUR 242 million. And this is after shareholder remuneration of EUR 311 million during the period. The Group ended the quarter with a strong liquidity position of EUR 4.5 billion.

New orders increased by 10%, year on year to over EUR 6.5 billion. Over the last twelve months order intake has remained strong across all divisions amounting to 1.2x work done. As a consequence, the Group's **order book** stands at over EUR 50 billion and is up by EUR 2.6 billion, or 6%, since March 2021. Our geographically diversified backlog has been significantly de-risked in recent years and the proportion of lower-risk projects has substantially increased over the last four years to currently more than 80% of our order book. 53% is located in North America with a further 38% in the Asia-Pacific region and 9% in Europe.

An active evaluation of capital allocation opportunities is a key ingredient of the Group's strategy. On February 23, HOCHTIEF submitted an **unconditional and final off-market takeover offer** for the 21.4% free-float shares of **CIMIC** at 22 AUD/share. I am pleased to inform you that as of early May 2022, HOCHTIEF attained 96% of CIMIC Group Limited as a result of the takeover offer. HOCHTIEF has initiated a compulsory acquisition (squeeze-out) of all the shares in CIMIC which HOCHTIEF does not already own which is expected to be completed during Q2 2022. On May 6, 2022, CIMIC shares ceased trading on the Australian stock exchange.

The Asia Pacific market has always been very attractive. Public and private clients are planning huge investments in infrastructure. It is therefore our intention to ensure CIMIC maintains and strengthens its leading position in the markets in which it operates, particularly in Australia and ensure that CIMIC is able to access opportunities both domestically and internationally.

The initially indicated investment cost for the acquisition of all the CIMIC shares not already owned by HOCHTIEF was approximately AUD 1.5 billion. Due to the hedging decision taken at the time the offer was announced there is a significant saving of approximately EUR 40 million leading to an investment value of around EUR 940 million.

Group Outlook

HOCHTIEF is **well positioned for the future** based on our solid, long-standing positions in our key local markets, a de-risked and growing order book and the identified tender pipeline of relevant projects worth over EUR 600 billion for 2022 and beyond, including PPP projects. The numerous stimulus packages approved by governments and the heightened focus on environmentally friendly projects provide additional opportunities. Furthermore during 2022, we will continue advancing the global implementation phase of the **Sustainability Plan 2025**.

The global economy is currently facing significant inflationary and supply-chain pressures. HOCHTIEF is well positioned and is actively managing these challenges. Around 60% of our revenues originate from cost-plus-fee type contracts in the Americas. For the remainder of our construction and services jobs we apply various tools for risk mitigation as part of our approach to risk management such as price escalation clauses, which allow us to pass on higher raw material costs, and enterprise bargaining agreements with workers covering the whole duration of projects. More immediately, and in response to the recent acceleration in inflation, our Group companies have responded with specific initiatives including agreeing additional risk-sharing mechanisms with clients, reducing the time during which our bid pricing is fixed and the pre-purchasing of materials and subcontractor capacity at the point in time when projects are awarded.

Our **guidance for 2022** is that we expect to achieve an operational net profit in the range of EUR 475–520 million, an increase of between 5% and 15% year on year, subject to market conditions.

Yours,

Marcelino Fernández Verdes
Chairman of the Executive Board

Interim Management Report

Financial review

Summary assessment of the business situation

HOCHTIEF generated nominal consolidated net profit of EUR 106 million in the first quarter of 2022, 23% higher than the comparable prior-year figure (EUR 86 million). Furthermore, the Group generated net cash from operating activities pre-factoring of EUR 703 million (LTM) and finished the quarter with a strong order backlog of EUR 50.2 billion, an increase of 6% year on year.

On February 23, 2022, through HOCHTIEF Australia, HOCHTIEF submitted an unconditional and final off-market takeover offer to acquire all CIMIC shares for AUD 22 cash per CIMIC share. The maximum aggregate amount of cash consideration is expected to total approximately EUR 940 million. To finance the payment obligation in respect of the offer, HOCHTIEF has entered into a transaction facility with a consortium of banks. At the end of April 2022, HOCHTIEF had acquired a 96.30% interest in CIMIC.

Sales and earnings

HOCHTIEF generated **sales** of EUR 5.3 billion in the first quarter of 2022. This marked 8% growth year on year (EUR 4.9 billion). Adjusted for exchange rate effects, sales were up 3% on the prior-year figure.

Sales

(EUR million)	Q1 2022	Q1 2021	Change	Change f/x-adjusted
HOCHTIEF Americas	3,505.3	3,221.9	8.8%	1.2%

HOCHTIEF Europe	275.7	284.7	-3.2%	-3.4%
Corporate	36.0	32.2	11.8%	4.7%
HOCHTIEF Group	5,333.3	4,934.4	8.1%	2.6%

The HOCHTIEF Americas division increased **sales** by 9% relative to the prior-year period (EUR 3.2 billion) to EUR 3.5 billion in the first quarter of 2022. Adjusted for exchange rate effects, sales were up 1%.

CIMIC generated sales of AUD 2.3 billion in the first quarter of 2022. The sales growth relative to the prior year (AUD 2.2 billion) came to 7%, with growth achieved in Australian Construction and Services. At the level of the HOCHTIEF Asia Pacific division, sales of EUR 1.5 billion were 9% higher year on year.

The HOCHTIEF Europe division generated sales of EUR 276 million in the first quarter of 2022 (prior year: EUR 285 million) with work done up 3% reflecting a higher share of joint venture projects during the quarter.

The sales volume on markets outside Germany amounted to EUR 5.1 billion in the first quarter of 2022. At 96%, the proportion of HOCHTIEF Group sales generated internationally was on a similar level to the prior year.

Net income from equity-method associates, joint ventures, and other participating interests improved by EUR 4 million year on year (EUR 46 million) to EUR 50 million. The increase mainly related to the larger earnings contribution from the Abertis Investment in Q1 2022 in the amount of EUR 5 million (Q1 2021: minus EUR 3 million).

Net investment and interest expense amounted to EUR 35 million in the first three months of 2022 (Q1 2021: EUR 30 million). The increase is mainly related to a higher interest expense in connection with drawings on the transaction facility to fund the payment obligation under the takeover offer to outstanding CIMIC shareholders.

HOCHTIEF generated **nominal profit before tax (PBT)** of EUR 166 million in the first quarter of 2022, marking an improvement of 14% (f/x-adjusted 9%) on the prior-year period (EUR 145 million). **Operational PBT** (nominal PBT adjusted for non-operational effects), at EUR 179 million, showed a 14% improvement on the prior-year period (EUR 158 million).

Nominal PBT in the HOCHTIEF Americas division amounted to EUR 83 million in the first quarter of 2022 (Q1 2021: EUR 88 million), with a margin on par with the FY 2021 level.

The earnings contribution of the HOCHTIEF Asia Pacific division reflects HOCHTIEF's holding in CIMIC (86.74% at the end of March 2022 versus 78.58% at the end of March 2021) as well as associated financing and holding costs, and the impact of variations in the AUD/EUR exchange rate. CIMIC generated nominal PBT of AUD 145 million in the first quarter of 2022. This was 25% higher year on year (AUD 116 million Q1 2021 comparable). It includes the impact of the CCPP settlement. At the division level, nominal PBT was EUR 77 million, compared to EUR 64 million in the prior-year period.

Nominal PBT in the HOCHTIEF Europe division came to EUR 11 million in the first quarter of 2022, thus on a similar level to the prior year.

Income tax expense amounted to EUR 46 million in the first quarter of 2022 (Q1 2021: EUR 39 million). The effective tax rate was nearly unchanged at 28% (Q1 2021: 27%).

The HOCHTIEF Group's **nominal net profit** totaled EUR 106 million in the first quarter of 2022 (Q1 2021: EUR 86 million), marking an improvement of 23%. HOCHTIEF raised **operational net profit** by 19% to EUR 118 million (Q1 2021: EUR 99 million).

New orders and order backlog

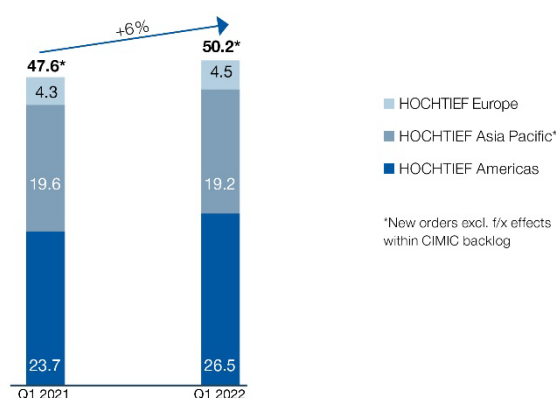

New orders of EUR 6.5 billion in Q1 2022 increased by EUR 0.6 billion year on year or 10% in nominal terms. In the last twelve months, the Group recorded a total of new orders equivalent to 1.2x work done and continues its disciplined bidding approach across all divisions.

Consequently, the **order book** rose by EUR 2.6 billion or 6% year on year to EUR 50.2 billion, or EUR 1.9 billion quarter on quarter (+4% on a comparable basis, i.e. excluding Ventia, reclassified as a financial asset end of March 2022). Our focus remains on developed markets. Our order book is geographically diversified and has been significantly de-risked in recent years reflecting the transformation in our approach to construction risk management across all divisions.

Free cash flow from operations pre-factoring	(525.2)	(469.1)	(56.1)	703.9

Net cash from operating activities pre-factoring, at minus EUR 505 million in the first quarter of 2022, reflects typical seasonality of the beginning of the year. The year-on-year variation is significantly impacted by movements in foreign exchange rates. Over the last twelve months, net cash from operating activities pre-factoring amounted to EUR 703 million.

Gross operating capital expenditure came to EUR 22 million in the first three months of 2022 and was thus on a similar level to the prior-year period (EUR 23 million). The majority of this was at 73% accounted for by the HOCHTIEF Asia Pacific division. Proceeds from operating asset disposals, as in the prior-year period, came to EUR 2 million. Net operating capital expenditure resulted in a total cash outflow of EUR 20 million, unchanged year on year.

Free cash flow from operations pre-factoring amounted to EUR 648 million over the last twelve months (up EUR 79 million year on year).

Balance sheet

Total assets in the HOCHTIEF Group stood at EUR 17.0 billion as of March 31, 2022 (December 31, 2021: EUR 16.2 billion).

Non-current assets increased during the first quarter of 2022 by EUR 473 million to EUR 5.8 billion. The increase mostly relates to CIMIC's investment in Ventia, which is accounted for as a financial asset since the end of the first quarter of 2022, whereas it was previously accounted for as an equity-method associate.

Current assets stood at EUR 11.2 billion at the end of the first quarter of 2022, marking an increase of EUR 268 million on the figure as of December 31, 2021. The trade receivables and other receivables of EUR 6.1 billion (December 31, 2021: EUR 5.5 billion) mainly reflect the seasonal increase and exchange rate effects. Marketable securities, at EUR 564 million, were almost at the same level as at the 2021 year-end. Cash and cash equivalents declined by EUR 389 million to EUR 3.9 billion in the first quarter of 2022. HOCHTIEF continued to have a strong liquidity position totaling EUR 4.5 billion as of the March 31, 2022 reporting date.

HOCHTIEF Group **equity** as of the March 31, 2022 reporting date amounted to EUR 917 million (December 31, 2021: EUR 1.1 billion). The changes in the first quarter of 2022 related to profit after tax (EUR 120 million), exchange rate effects (EUR 60 million), the effect of increasing the shareholding in CIMIC in Q1 2022 (minus EUR 364 million), dividends (minus EUR 10 million), and other changes outside the statement of earnings (EUR 25 million).

Non-current liabilities came to EUR 5.4 billion at the end of the first quarter of 2022, on a par with the end of 2021. Of the total non-current liabilities, EUR 4.2 billion related as before to non-current financial liabilities and lease liabilities. These included non-current lease liabilities recognized in accordance with IFRS 16 in the amount of EUR 278 million as of the March 31, 2022 reporting date (December 31, 2021: EUR 272 million). Non-current provisions decreased by a total of EUR 65 million to EUR 834 million, mainly due to adjustment of the discount rate on pension provisions to the higher capital-market level.

Current liabilities increased by EUR 912 million to EUR 10.6 billion at the end of the first quarter of 2022. Financial liabilities went up by EUR 513 million to EUR 1.0 billion. This increase mainly related to drawings on a transaction facility to fund the payment obligation under the takeover offer to outstanding CIMIC shareholders. Trade payables and other liabilities rose by EUR 458 million to EUR 8.5 billion, mainly due to HOCHTIEF Asia Pacific and exchange rate effects.

The HOCHTIEF Group had **net financial debt** of EUR 351 million as of the March 31, 2022 reporting date. In addition to seasonally typical cash outflow at the beginning of the year, this includes the purchase of CIMIC shares under the ongoing takeover offer in the amount of EUR 364 million.

Risk and opportunities report

There has been no material change of the overall assessment with regard to opportunities and risks presented in our 2021 Group Report. The statements regarding the opportunities and risks made in the Group Report as of December 31, 2021 therefore continue to apply. Regarding Ichthys LNG project (CCPP), CIMIC has entered into a conditional, confidential commercial agreement with its consortium partners and the client resulting in a full and final settlement of all matters in connection with the contract. This settlement agreement is subject to a number of conditions precedent related primarily to payment obligations. The Q1 2022 results include the profit impact of this settlement.

Economies currently are facing significant inflationary pressures and supply-chain strains. HOCHTIEF is generally well positioned to manage these challenges. Around 60% of the revenues originate from cost-plus-fee type contracts in the Americas. For the remainder of the construction and services jobs HOCHTIEF applies various tools for risk mitigation as part of its risk management. These include price escalation clauses which allow to pass on higher raw material costs and enterprise bargaining agreements with workers covering the whole duration of projects. Furthermore, in recent years HOCHTIEF shifted the contract portfolio in construction in its diversified geographies towards lower-risk alliance, collaboration and partnering contracts.

Report on forecast and other statements relating to the Company's likely future development

HOCHTIEF expects to achieve an operational net profit in 2022 in the range of EUR 475–520 million, an increase of between 5 to 15% year on year, subject to market conditions.

HOCHTIEF Americas delivered a firm set of results in Q1 2022 accompanied by substantial order book growth.

Sales year to date of EUR 3.5 billion were 9% higher than the corresponding period of Q1 2021 (+1% f/x-adjusted) with work done up 10% year on year.

Operational PBT of EUR 88 million was at a similar level to the first quarter of 2021, with a solid margin of 2.5% in line with the FY 2021 level.

The division's **net cash from operating activities** pre-factoring in Q1 2022 reflects seasonal working capital variation and project timing effects. The year-on-year variation is driven significantly by f/x movements.

The strong balance sheet at HOCHTIEF Americas showed a **net cash** position of over EUR 1.1 billion at the end of March 2022 up EUR 26 million year on year.

At the end of the period, the **order backlog** stood at another record high of EUR 26.5 billion up 12% year on year or 6% f/x-adjusted with an absolute increase of EUR 2.8 billion since March 2021. **New orders** secured during Q1 2022 reached EUR 3.5 billion up by 4% year on year with work secured in the last twelve months representing 1.1x work done.

Turner is building a 16-megawatt data center in Iowa. This is the first phase of a project for over a billion dollars. Another data center is being built in North Carolina and contracts to build two more data centers were awarded in Virginia.

In Philadelphia, Pennsylvania, Turner is providing preconstruction and construction management services in a new project for Wexford Science and Technology. The project involves the construction of two towers accommodating laboratory and office space.

The Suitland High School project in District Heights, Maryland, will entail the full replacement of the original 1940's High School and the development of the surrounding property and site. Turner is building a new, sustainable, state-of-the-art Performing Arts High School, serving 2,000 students.

At the University of California in Merced, Turner is building an approximately 17,000-square-meter Medical Education Building. It will provide instructional facilities for medical education and other allied healthcare-related courses.

Flatiron has been awarded the contract to improve the disinfection and chemical systems of the Orinda Water Treatment Plant in California. Valued at approximately EUR 239 million, the project is to be completed in 2027. The work involves modernizing and replacing existing facilities and constructing new buildings.

HOCHTIEF Americas Outlook

For 2022, we target an operational pre-tax profit of EUR 350 million to EUR 370 million, subject to market conditions.

Key developments at Abertis

Abertis' **average daily traffic** in Q1 2022 was 16% higher year on year reflecting the continuing recovery of traffic levels and benefiting from the resilience afforded by the group's diversified portfolio of toll roads. During the first quarter of the year, traffic achieved levels above those of pre-Covid 2019.

Individual year-on-year country figures showed strong traffic performances: France +22%, Spain +41%, Italy +33%, Brazil +6%, Chile +33%, Mexico +13% and USA +4%.

On a comparable basis Q1 2022 operating **revenues** rose 18% year on year to EUR 1.1 billion. **EBITDA** rose by 7% to EUR 762 million, an increase of 23% on a comparable basis.

Abertis' **net profit** in Q1 2022 pre-PPA was EUR 98 million, a 17% increase year on year.

The toll road company declared a dividend of EUR 602 million in April 2022 of which HOCHTIEF will receive its share of EUR 119 million. The expected total payout for the three-year period 2022–24 is EUR 1.8 billion.

Abertis contribution to HOCHTIEF

HOCHTIEF owns a 20% stake in Abertis HoldCo, the direct owner of 98.7% of Abertis Infraestructuras, S.A. (Abertis), a leading international toll road operator. This investment is accounted for using the equity method and the net profit contribution is consequently included as an operating item in HOCHTIEF EBITDA.

The contribution to the HOCHTIEF Group resulting from the **Abertis Investment** reflects the operating performance of Abertis and the non-cash purchase price allocation (PPA) expense.

For Q1 2022, a EUR 5 million earnings contribution from Abertis was recognized, compared with EUR 3 million loss in Q1 2021.

Abertis Investment Outlook

Looking forward, we expect our Abertis investment will make a positive profit contribution to HOCHTIEF in FY 2022 subject to market conditions.

Explanatory Notes to the Consolidated Financial Statements

Accounting policies

The Interim Consolidated Financial Statements as of and for the three months ended March 31, 2022, which were released for publication on May 6, 2022, have been prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the EU. In accordance with IAS 34, the reported information is presented in condensed form relative to the full Consolidated Financial Statements.

This interim report is based on the Consolidated Financial Statements as of and for the year ended December 31, 2021.

Due to a change in capital market interest rates, HOCHTIEF has modified the discount rates for the measurement of pension obligations as follows as of March 31, 2022:

(in %)	Mar. 31, 2022	Dec. 31, 2021
Germany	2.10	1.31
USA	2.64	2.64
UK	2.75	1.80

This report has been prepared in all other respects using the same accounting policies as in the 2021 Consolidated Financial Statements. Information on those accounting policies is given in the Group Report 2021.

Currency translation

For currency translation purposes, the following exchange rates have been used for the main Group companies outside the Euro zone:

Changes in the scope of consolidation

The Consolidated Financial Statements for the first quarter of 2022 include 13 foreign companies for the first time. One foreign company has been removed from the scope of consolidation.

The number of companies accounted for using the equity method did not change in the first three months of 2022. CIMIC has decided to remove its nominee directors from the Ventia board and to waive certain of its material shareholder rights under the relationship deed in respect of nominating directors. As a result of these changes, the investment in Ventia is accounted for as of March 31, 2022 as a financial asset, whereas it was previously accounted for at equity. This decrease is offset by an increase from another foreign company. In addition, the number of joint operations abroad included in the Consolidated Financial Statements decreased by two.

The Consolidated Financial Statements as of March 31, 2022 include HOCHTIEF Aktiengesellschaft as well as a total of 45 German and 320 foreign consolidated companies, 14 German and 87 foreign companies accounted for using the equity method as well as 90 foreign joint operations.

As an independent listed group, HOCHTIEF Aktiengesellschaft, Essen, Germany, Court of Registration: Essen District Court, HRB 279, publishes its own consolidated financial statements, which are also included in the consolidated financial statements of ACS, Actividades de Construcción y Servicios, S.A., Madrid, Spain.

Non-current assets held for sale

Non-current assets held for sale relate to CIMIC and amount to EUR 29.9 million (December 31, 2021: EUR 28.4 million). The position also includes BICC with a book value of nil (December 31, 2021: EUR nil). The completion of SALD's acquisition of CIMIC's 45% investment in BICC is subject to satisfaction of certain conditions precedent and obtaining all necessary approvals. The parties continue to work together to achieve the satisfaction of the remaining outstanding conditions precedent and obtaining all necessary approvals.

Takeover offer for the Group company CIMIC

On February 23, 2022, HOCHTIEF approved an unconditional and final off-market takeover offer to acquire all CIMIC shares held by CIMIC free-float shareholders for AUD 22 cash per share. The official offer period began when the offer documents were sent to the free-float shareholders on March 10, 2022. It originally ended on April 11, 2022, but was extended on that date to April 26, 2022. HOCHTIEF further extended the offer period until May 10, 2022 on April 26, 2022. Under the offer terms, if a CIMIC shareholder accepts the offer in respect of that shareholder's CIMIC shares, HOCHTIEF will be entitled to all rights attaching to those CIMIC shares, which includes the amount of any dividends declared or paid by CIMIC after the date of announcement of the offer.

As a result of the offer acceptances received in Q1 2022, HOCHTIEF's shareholding in CIMIC amounted to 86.74% as of March 31, 2022 (December 31, 2021: 78.58%). On April 22, 2022, HOCHTIEF passed the legal threshold for follow-on compulsory acquisition (squeeze-out) of the shares held by the remaining minority shareholders. HOCHTIEF has commenced this process of compulsorily acquiring the remaining ordinary shares in CIMIC by April 29, 2022. As of early May 2022 HOCHTIEF's shareholding in CIMIC is over 96%.

The maximum aggregate amount of cash consideration that HOCHTIEF would be required to pay under the offer (66,665,467 CIMIC shares multiplied by the offer price of AUD 22 per share) is expected to total approximately AUD 1.5 billion (EUR 940 million post f/x hedging). To finance the payment obligation in respect of the offer, HOCHTIEF has entered into a transaction facility with a consortium of banks.

Trade receivables and other receivables

(EUR thousand)	Mar. 31, 2022	Dec. 31, 2021
Trade receivables	3,401,205	3,074,853
Contract assets	2,017,236	1,740,381
Other receivables and other assets	940,848	905,769
	6,359,289	5,721,003

Part-performance already invoiced and other contract receivables are accounted for in trade receivables. Performance not yet billed is accounted for in contract assets if progress payments do not exceed cumulative performance (contract costs and contract earnings). Where the net amount after deduction of progress payments is negative, the difference is presented under contract liabilities.

Trade payables and other liabilities

(EUR thousand)	Mar. 31, 2022	Dec. 31, 2021
Trade payables	6,011,565	5,478,284
Contract liabilities	2,130,004	2,166,467
Other liabilities	651,375	681,906
	8,792,944	8,326,657

Reporting on financial instruments

The fair value of the individual assets and liabilities is stated for each class of financial instrument. The following three-level fair value hierarchy is applied that reflects the observability of inputs to the valuation techniques used to measure fair value.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities as input parameter; e.g. quoted securities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); e.g. interest rate swaps and forward exchange contracts.

Level 3: No relevant observable inputs available, hence unobservable inputs are determined as an exit price from the perspective of a market participant that holds the asset or owes the liability; e.g. investments measured at fair value determined by business valuation.

(EUR thousand)	Mar. 31, 2022				Dec. 31, 2021			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Assets								
Other financial assets	469,535	35,898	54,216	559,649	2,415	32,736	51,487	86,638
Other and financial receivables and other assets								
Non-current	15	12,667	–	12,682	7	11,570	–	11,577
Current	250	40,931	–	41,181	57	40,824	–	40,881
Marketable securities	563,620	49	–	563,669	571,777	48	–	571,825
Total assets	1,033,420	89,545	54,216	1,177,181	574,256	85,178	51,487	710,921
Liabilities								
Other liabilities								
Non-current	67	1,789	8,767	10,623	292	4,807	8,325	13,424
Current	350	7,151	–	7,501	234	487	–	721
Total liabilities	417	8,940	8,767	18,124	526	5,294	8,325	14,145

Within each class of financial instrument, where fair value can be measured reliably, fair value generally corresponds to carrying amount. The only class of financial instrument for which the two differ is financial liabilities measured at amortized cost, which have a total carrying amount of EUR 5,002,469 thousand (December 31, 2021: EUR 4,466,259 thousand) and a fair value of EUR 4,749,223 thousand (December 31, 2021: 4,495,391 thousand).

As in the comparative prior-year period, there were no transfers of financial instruments measured at fair value between Levels 1 and 2 as well as Level 3 of the fair value hierarchy during the first quarter of 2022.

The Group's forward exchange contracts are not traded in active markets. The fair values of these contracts are estimated using a valuation technique that maximizes the use of observable market inputs, e.g. market exchange and interest rates. They are therefore included in Level 2 of the fair value hierarchy.

In Level 3, the fair value of investments in unlisted entities is measured using generally recognized valuation techniques based on discounted cash flow analysis. The unobservable input parameters are the internal rate of return as well as the growth rate and discount rate.

As part of the Thiess divestment, the transaction agreement includes an option for Elliott to sell all or part of its 50% interest in Thiess to CIMIC after the third anniversary, between four and six years from completion on December 31, 2020. The exercise price will be the lower of a cost price paid by Elliott for the Thiess shares or a price referable to movements in the S&P / ASX 200 Total Return index plus the accrued value of any shortfall in agreed minimum distributions. This option has no current impact on the control of the company.

The put option is accounted for as a derivative financial instrument in accordance with IFRS 9 and will therefore be held at fair value through profit and loss in the financial statements. The fair value of the put option cannot be observed from a market price. A Probability Weighted Expected Returns Methodology is used to derive the value of the put option proceeds based on future potential payoffs if the option is exercised, adjusted for the minimum annual distributions per the Shareholders Agreement, and compares this to the estimated strike price to determine a fair value. External independent valuation advisors have been utilized in determining the fair value of the put option. The fair value of this option is unchanged and amounts to AUD 13 million (EUR 8.8 million) [December 31, 2021: AUD 13 million (EUR 8.3 million)]. The input parameters for the valuation are the expected exercise period, an EBITDA multiplier, and the discount rate.

Changes in the unobservable inputs had no material effect on total comprehensive income, total assets and liabilities, or equity.

Reconciliation of opening to closing balances for Level 3 measurements of other financial assets as well as other liabilities:

Capital risk management

Cash in the amount of EUR 291,926 thousand (December 31, 2021: EUR 277,233 thousand) is subject to financial and operational restrictions or is restricted in relation to the sale of receivables.

Treasury stock

As of March 31, 2022, HOCHTIEF Aktiengesellschaft held a total of 2,525,851 shares of treasury stock (3.58% of the capital stock), unchanged from December 31, 2021.

Dividend

The Annual General Meeting of HOCHTIEF Aktiengesellschaft resolved on April 27, 2022 to pay a dividend for 2021 of EUR 1.91 per eligible no-par-value share. This resulted in a dividend payment of EUR 130,110,834.96, which will be paid on July 7, 2022.

Financial events

On February 23, 2022, HOCHTIEF, through its wholly-owned subsidiary HOCHTIEF Australia Holdings Limited ("HOCHTIEF Australia"), submitted an unconditional and final off-market takeover offer ("offer") to acquire all CIMIC shares held by CIMIC free-float shareholders other than HOCHTIEF Australia for AUD 22 cash per CIMIC share. To finance the payment obligation in respect of the offer, HOCHTIEF has entered into a transaction facility with a consortium of banks for EUR 1 billion with a term of one year (plus two extension options for six months each). The costs for the share acquisitions amount to AUD 559 million (EUR 364 million) until March 31, 2022. These costs were covered by the transaction facility, which was drawn down in the amount of EUR 450 million as of March 31, 2022. The investment costs for the acquisition of all CIMIC shares not already owned by HOCHTIEF are up to approximately AUD 1.5 billion, which is due to the currency hedging around EUR 940 million.

Trade finance arrangements

The Group enters into factoring agreements with banks and financial institutions. These agreements only relate to certified receivables, on a non-recourse basis, acknowledged by the client with payment only being subject to the passage of time. Under the factoring agreements:

- The certified receivables are derecognized when substantially all the risks and rewards of ownership have been transferred;
- The cash flow to the Group only arises when there is an amount certified by the client and contractually due to be paid to the Group; there are no disputes on the amounts due and the customer has acknowledged this by way of certification; and
- The receipt by the Group irrevocably removes the Group's right to the certified receivable due from the customers.

The factoring of these receivables is therefore done on a non-recourse basis. The level of non-recourse factoring across the Group was EUR 753 million as of March 31, 2022 (March 31, 2021: EUR 957 million and December 31, 2021: EUR 758 million).

The Group enters into supply chain finance arrangements with financial institutions for suppliers which may elect to receive early payment for goods and services to improve their liquidity. The supply chain finance program is offered on a voluntary basis and suppliers can opt in and opt out at their discretion at any point in time. The terms of the arrangements are:

- The creditor arises from operational expenses relating to the supply of goods and services;
- They mirror normal credit terms;
- There are no additional credit enhancements; and
- They are subject to the same obligations that are customary within the industry, such as warranty for defective work.

Accordingly, the terms of the arrangement do not modify the original liability, and therefore the amounts continue to be classified within trade and other payables. The level of supply chain finance across the Group was EUR 54 million as of March 31, 2022 (March 31, 2021: EUR 106 million and December 31, 2021: EUR 64 million).

Contingent liabilities

The contingent liabilities relate to liabilities under guarantees; they have increased since December 31, 2021 by EUR 3 thousand to EUR 607 thousand.

Segment reporting

The operating companies within the HOCHTIEF Group are organized under the four divisions HOCHTIEF Americas, HOCHTIEF Asia Pacific, HOCHTIEF Europe, and Abertis Investment. This structure reflects the operating focus of the Group as well as its strong regional presence, focused on developed markets. Segmental reporting in the HOCHTIEF Group is based on the Group's divisional operations. The breakdown mirrors the Group's internal reporting systems.

The Group's reportable segments (divisions) are as follows:

HOCHTIEF Americas encompasses the construction activities of operational units in the USA and Canada.

HOCHTIEF Asia Pacific pools the construction, services, and PPP activities in the Asia-Pacific region and, among other things, includes the investment in Thiess, which is accounted for in the Consolidated Financial Statements using the equity method.

HOCHTIEF Europe brings together the core business in Europe as well as selected other regions and designs, develops, builds, operates, and manages real estate and infrastructure (PPP).

Abertis Investment comprises the investment in the Spanish toll road operator Abertis Infraestructuras, S.A., and is equity-accounted in HOCHTIEF's Consolidated Financial Statements.

Corporate comprises Corporate Headquarters, other activities not assignable to the separately presented divisions, including management of financial resources and insurance activities, plus consolidation effects. Insurance activities are managed from Corporate Headquarters under the responsibility of HOCHTIEF Insurance Broking and Risk Management Solutions GmbH with companies in Luxembourg, including Builders Reinsurance S.A. The HOCHTIEF insurance companies primarily provide reinsurance offerings for contractors' casualty and surety, subcontractor default, liability, and occupational accident insurance.

Detailed information on the individual divisions/segments of the HOCHTIEF Group is contained in the preceding Interim Management Report.

Sales by division are allocated to the types of activities "Construction/PPP," "Construction Management/Services," and "Other." "Construction/PPP" includes Flatiron at HOCHTIEF Americas, CPB Contractors, and Leighton Asia at HOCHTIEF Asia Pacific and HOCHTIEF Infrastructure and HOCHTIEF PPP Solutions at HOCHTIEF Europe. The main construction management and services companies are Turner at HOCHTIEF Americas, UGL's service business, and Sedgman's mineral processing businesses at HOCHTIEF Asia Pacific and HOCHTIEF Engineering, as well as synexs and Trinac at HOCHTIEF Europe. Sales from non-core businesses are allocated to the category "Other."

Sales at HOCHTIEF Americas in the amount of EUR 3,505,305 thousand (March 31, 2021: EUR 3,221,931 thousand) are recognized mainly in the "Construction Management/Services" category. At HOCHTIEF Asia Pacific, sales of EUR 1,516,292 thousand (March 31, 2021: EUR 1,395,648 thousand) are mainly generated in the activities "Construction/PPP" and "Construction Management/Services." External sales at HOCHTIEF Europe in the amount of EUR 275,699 thousand (March 31, 2021: EUR 284,685 thousand) are mainly recognized in the "Construction/PPP" category. Other sales recognized in "Corporate" amount to EUR 36,002 thousand (March 31, 2021: EUR 32,145 thousand).

Sales not related to contracts with clients, mainly relating to "Other" activities in Corporate, amount to EUR 41,609 thousand (March 31, 2021: EUR 40,967 thousand).

Almost all sales are recognized over time.

Earnings per share can become diluted as a result of potential shares (mainly stock options and convertible bonds). HOCHTIEF's share-based payment arrangements do not have a dilutive effect on earnings. Consequently, diluted and basic earnings per share are identical.

Related party disclosures

The number of companies and individuals comprising related parties of HOCHTIEF Aktiengesellschaft and HOCHTIEF Group companies is determined in accordance with IAS 24; reference is consequently made in this regard to the information provided in the notes to the last Consolidated Financial Statements.

In the first quarter of 2022, no material transactions were entered into between HOCHTIEF Aktiengesellschaft (or any HOCHTIEF Group company) and any related party or parties having a material influence on the results of operations or financial condition of the Company or the Group.

Events since the balance sheet date

With regard to the off-market takeover offer to acquire all CIMIC shares, we refer to the sections "Takeover offer for the Group company CIMIC" and "Financial events". On May 6, 2022, CIMIC shares ceased trading on the Australian stock exchange.
