

## **Impreglon sets new sales record in Q3**

### **9 months sales climb to EUR 107 MM**

Despite of the usually weaker 3<sup>rd</sup> quarter due to the holiday season Impreglon was able to increase its sales to EUR 107 MM, a rise of 19%. Therefore the target of EUR 140 MM for the whole year should surely be reached.

But not only sales also the EBITDA result before depreciation, interest and taxes showed a good performance by advancing to EUR 17.4 MM or 16.3% of total sales, representing a 44% increase over last year.

The only downer is the special EUR 1.2 MM write-off on the Ropal production line, which did not produce the expected sales for the licensed chromeless "Chromoptics process". Without this special write-off earnings per share would have increased from EUR 0.54 to EUR 0.64.

With 36 plants in 15 countries on 4 continents, Impreglon is one of the global leaders in surface technology.
