## **Note to Page 4 – Calculation of IRR**

Unless otherwise indicated, internal rates of return ("IRRs") measure the aggregate annual compounded returns generated by a fund's investments over a holding period, including, in many cases, where an investment has not yet been exited and the holding period end date is not yet known. As a result, an investment's future final IRR calculated after the exact holding period is known may differ, perhaps materially, from the IRR that is shown before the investment is exited. "Gross IRRs" are calculated before giving effect to the allocation of carried interest and the payment of any applicable management fees and organizational expenses.

These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to KKR (including Global Atlantic and KJRM) or are within its control. These statements are subject to numerous risks, uncertainties and assumptions, including those listed in this Appendix and described under the section entitled "Risk Factors" in KKR & Co. Inc.'s Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC on February 28, 2022, as such factors may be updated from time to time in our periodic filings with the SEC, which are accessible on the SEC's website at [www.sec.gov](http://www.sec.gov). ## **Third Party Sources and Other Information**

Certain information presented in this presentation has been developed internally or obtained from sources believed to be reliable; however, KKR does not give any representation or warranty as to the accuracy, adequacy, timeliness or completeness of such information, and assumes no responsibility for independent verification of such information.

## **Non-GAAP and Segment Measures**

The key non-GAAP and other operating and performance measures used in this presentation are used by management in making operational and resource deployment decisions as well as assessing the performance of KKR's businesses. They include certain financial measures that are calculated and presented using methodologies other than in accordance with U.S. generally accepted accounting principles ("GAAP"). We believe that providing these non-GAAP measures on a supplemental basis to our GAAP results is helpful to investors in assessing the overall performance of KKR's business. These non-GAAP measures should not be considered as a substitute for financial measures calculated in accordance with GAAP. To the extent any forward-looking non-GAAP financial measures are presented herein, a reconciliation to the most directly comparable GAAP financial measures has not been provided as such a reconciliation is not available without unreasonable effort due to the inherent difficulty of forecasting the timing or amount of items that would be included in such a reconciliation. We are unable to assess the probable significance of the unavailable information. We also caution readers that these non-GAAP financial measures may differ from the calculations made by other companies in our industry, and as a result, may not be directly comparable to similarly titled measures presented by other companies. Other information about KKR's non-GAAP and other operating and performance measures is available at KKR & Co. Inc.'s most recent earnings release, which is accessible at the Investor Center for KKR & Co. Inc. at <https://ir.kkr.com/events-presentations/>.
