LEKGIL

Shaping the future of oil exploration and production in Africa

UBS European Oil Conference - March 2017

Production Starts at Otakikpo

5,000 bopd*

initial rate on 16 Feb

10,000 bopd by end of Q2

- Both wells -002 and -003 performing to expectations
 - Oil to tank started from well -003 which, was not previously flow tested
 - Focused on gathering initial production data and optimizing well performance
- First crude loadings have commenced onto shuttle tanker
 - Regular exports underway
 - Current storage onsite = 45,000 barrels (filled up once oil flowed to tank)

Corporate strategy

A well-balanced portfolio of assets

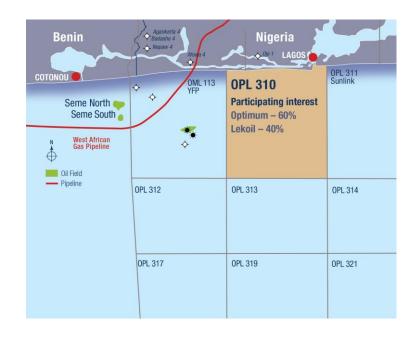

OPL 310

LEKOIL

Contains the "Ogo" world-class discovery

40% working interest*, 70% economic interest**

- Located in the Dahomey Basin that runs along the **West African Transform Margin** covering area of 1,900 km²
- **Shallow water asset close to Lagos** and existing gas infrastructure
- Additional upside potential expected from other identified syn-rift leads within the block
- Lekoil farmed-in to Afren's interest in February 2013 and acquired the balance of its interest in December 2015

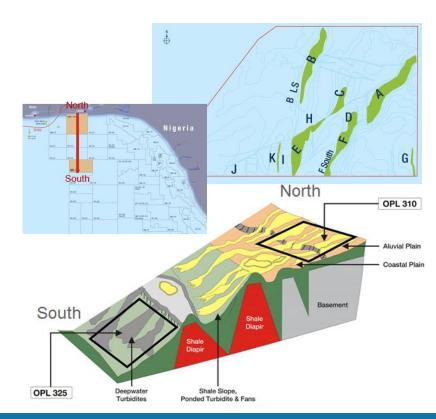

OPL 325

Promising asset with deep water turbidite fan play

62% indirect equity interest

- We identified this block as a key target with exploration upside in our proprietary Dahomey Basin study
- OPL 325 is a deep to ultra-deep-water block located in the **Dahomey Basin** on the western side of the Niger Delta
- Highly prospective and on trend with OPL310, geologically
- Low-cost entry and prolific geology

2017: Focusing on OPL310

Jewel In The Portfolio

Projected Timeline

Q2

Q3

Q4

Otakikpo

Expand Production to 10,000 bpd

Production Increase **Decision**

OPL310

Ministerial consent

OPL325

Ongoing farm-out consideration

Our focus for 2017 and beyond

- Steady state production of 10,000 bpd
- **De-risking exploration assets** and finding complementary portfolio opportunities
- Considering **non-dilutive** financial structures and strategic partnerships
 - Allowing access to substantial sources of capital
- Build a resource base that will **drive substantial production growth** over the next five years
- Retain a strong team and be a **good corporate citizen**

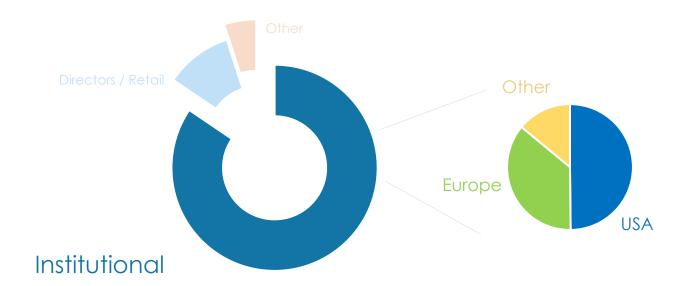

Why Lekoil?

- ✓ We are an indigenous Nigerian upstream E&P company with a focus on West Africa
- ✓ Forecasted strong production growth with low cash breakeven
- We opened an **underexplored** basin with **transformational** oil and gas potential
- ✓ Focus on cost discipline and efficiency.
- **Highly experienced** technical team
- Strength to create value through the cycle
