Note:

In 2018, the Company focused on the strategic goal of "becoming a leading provider of smart home solutions in the era of Internet of Things". Driven by the *Individual and Goal Combination* model, and leveraging on world-class brands cluster and globalized structure, the Company continually promoted retail transformation and global operation, and maintained product leadership, channel deepening and marketing optimization, so as to strengthen the leading advantages in the industry. Facing the opportunities in the era of Internet of Things, the Company will develop new growth points such as ecological income by establishing ecological circles, building up eco-brands, promoting mass customization and iterating the best users experience based on interaction within various communities through U+ smart life platform, COSMOPlat Smart Manufacturing Industrial Internet Platform and large Shunguang online and offline community interaction platform.

(1) Domestic market: the Company made great efforts in deepening the establishment of the operating system with retail business as the core, implementing the transformation of "from the sale of products to the sale of solutions, from launching to fermentation, from outlets to contact points, from price to value", and improving structure of product portfolio and structure of brands to achieve growth under unfavorable environment. As to performance of each segment, in the first three quarters, revenue from refrigerator business, washing machine business, air-conditioner business, water heater business and kitchen appliance business increased by 15.9%, 16.2%, 15.7%, 14.5% and 18.9%, respectively. • During the reporting period, the Company's market share across the product portfolio has been increasing. According to the statistics from CMM, the retail sales of Haier refrigerators, washing machines, air conditioners, water heaters, hoods and stoves increased by 4.03,3.87,0.49,1.27,0.67,1.07 percentage points respectively from January to September 2018 as compared with the same period of last year. Retail sales of refrigerators and washing machines maintained the leading position in the industry and the leading edge continued to grow, with the share of retails sales reaching 35.17% and 33.33%, respectively, which was 3.13 and 1.87 times of that of the runner-up brand. • Despite the increasing downward pressure in the industry in the third quarter, the high-end brand Casarte continued to maintain its high growth, with the revenue increasing by 49% during the first three quarters. Products under Casarte maintained an overwhelming advantage in the high-end market. For example, under this brand, the market share of refrigerators priced above RMB10,000 reached 36%; the market share of drum washing machines priced above

RMB10,000 reached 77%; the market share of air conditioners priced above RMB16,000 reached 42.7%.

(2) Overseas markets: focusing on localized branding and leadership, continuing to push ahead with the "triple strategy" for manufacturing, marketing and R&D, strengthening competitiveness in end-user market, and achieving the transformation to high-end brands. • In the first three quarters of 2018, the Company maintained rapid growth in the North American market, with revenue denominated in US dollar growing by 11.83%, while the accumulated growth of home appliance industry in the U.S. was flat in the first three quarters. • Each region focuses on high-end brand building, while enhancing competitiveness in brands, products and marketing, with the aim of promoting the steady growth of business. The South Asian market recorded a growth in revenue of 24%, the European market recorded a growth in revenue of 21%, the Latin American market recorded a growth in revenue of 55%, and the Japanese market recorded a growth in revenue of 10%. • In the third quarter of 2018, the Company completed the acquisition of the home appliance assets and business of Fisher & Paykel in New Zealand, thus achieving leading market position in Oceania: the dual brands of Fisher & Paykel and Haier ranked No.2 in terms of market share in Australia, and ranked No.1 in terms of that in New Zealand, representing a ratio of over 40%; as to brand, on top of Haier, Casarte, AQUA, GE Appliance and Leader, the Company acquired Fisher & Paykel, the world's top high-end home appliance brand, and continues to expand its portfolio of global brands; Revenue of Fisher& Paykel (dominated in New Zealand Dollar) increased by 7% in the first three quarters of 2018, and 12% in the third quarter. In September 2018, the Company announced its intention to acquire 100% equity interests in Candy S.p.A, an Italian company. The transaction was intended to strengthen the expansion in the European market, improve the product portfolio and the network of local brands, while consolidating the coverage of different customer groups, and further enhancing the position in the European market. Upon the completion of the acquisition, the market share of the Company in

Europe will leap to top 5.

(3) The Company has been committed to creating a smart home community in the era of Internet of Things to create an ecological platform. • Strengthening the experience of the 4+7+N smart home solutions (note), iteratively integrating online and offline delivery system, while creating a global interconnecting platform, and continuing to upgrade the application in AI artificial intelligence scenarios. From January to September 2018, the amount of activation of the Company's smart home appliances increased by 85% YoY, the sales of the comprehensive household appliance solutions increased by 134% YoY, and the number of smart home users increased by 23% YoY. The revenue from its IoT ecological systems amounted to RMB2.095 billion, representing a year-on-year growth of over 200%. In terms of the creation of ecological circle, based on the life scenes of users, Haier's Internet of Clothing offer Internet of Things solutions for the whole life-cycle covering washing, care, storage, dressing and purchase, while integrating ecological cooperation resources of clothing associations and home textile associations, quickly gathering clothing resources and rapidly copying the innovative model factories, stores and homes; it also played a leading role in drafting the world's first IEEE international standard for the Internet of Clothing; the platform has gathered over 2,400 clothing resources, and the Internet of Clothing achieved an YoY increase of 10 times in ecological revenue in the first three quarters of 2018. Building on the leading position in terms of market share, the Internet of Food provided users with Internet of Things health solutions in smart kitchen scenes by way of integrating safe ingredients, health resources and intelligent hardware resources; the international standards for the Internet of Food, which were submitted to the IEEE, have been approved for further development, and technologies for the Internet of Food will enter the stage of developing international standards. • Continue to promote the construction of the industrial Internet platform of COSMOPlat, and implement the model of mass customization, with participation of users throughout the process. IEEE, ISO, and IEC, three major international standards-developing bodies, designated the Company to lead the development of international standards for the model of mass customization and industrial Internet platforms. From January to September 2018, COSMOPlat recorded a revenue of RMB4.7 billion.

(4) On 24 October 2018 (Frankfurt time), the Company engaged the initial public offering of shares on the D share market of China Europe International Exchange, and passed the admittance of and obtained permission to list on Frankfurt Stock Exchange. The listing structured the Company's "A+D" capital market platform home and abroad, and is going to enhance the Company's brand presence worldwide, as well as support the landing and further development of the Company's global business, especially the business in Europe.

Note: Among the word "4+7+N smart home solutions", "4" refers to the four physical spaces that Haier continues to upgrade iteratively, namely smart living room, smart kitchen, smart bathroom and smart bedroom; "7" refers to seven comprehensive household appliance solutions, i.e. household ventilation, household water usage, household washing & cleaning, household security, household voice appliance, household health and household information; while "N" is a variable, which represents that the user is able to customize smart living scenarios in accordance with their life style, achieving infinite diversified possibilities.
