“RTL Group’s strategy pays off”

Joint statement from **Guillaume de Posch** and **Anke Schäferkordt**,
Co-Chief Executive Officers of RTL Group

“During the first nine months of 2016, RTL Group once again demonstrated the sustainable success of its diversified portfolio and growth strategy. Despite two major sport events during the summer, we were able to increase both revenue and EBITA once again. This result was mainly driven by the strong performance of Groupe M6, Mediengruppe RTL Deutschland and our rapidly growing digital business.

As expected, the results in the third quarter were weaker than the year before. This is the result of the expected front-loading we have experienced this year because of the sport events during the summer – namely the Uefa Euro 2016 and the Olympic Games. Nonetheless, we are in line with guidance for the full-year 2016 and on track for yet another record year.

At the presentation of the full-year results 2014, we said that we wanted to grow digital into a strong pillar of our company, with revenue reaching 10 per cent of the Group’s total revenue within the next few years. Looking at the 9-month figures 2016, we are happy to say that our digital businesses make up more than 10 per cent of our total revenue. We have reached this milestone much quicker than expected.”

January to September 2016: Mediengruppe RTL Deutschland and digital drive revenue

- Reported Group **revenue** increased by 2.1 per cent to €4,230 million (January to September 2015: €4,141 million), reaching a new record level. This was driven by higher revenue from Mediengruppe RTL Deutschland, Groupe M6, RTL Nederland and RTL Group's rapidly growing digital businesses
- RTL Group's **digital revenue**³ continued to grow dynamically, up 25.0 per cent to €430 million (January to September 2015: €344 million)
- **Reported EBITA** was up 5.6 per cent to €756 million compared to €716 million in the first nine months of 2015, mainly due to higher profit contribution from Mediengruppe RTL Deutschland and a positive one-off effect at Groupe M6 amounting to €43 million. **EBITA margin** grew to 17.9 per cent (January to September 2015: 17.3 per cent)
- **EBITDA** was up 7.0 per cent to €903 million for the first nine months of 2016 (January to September 2015: €844 million), with an **EBITDA margin** of 21.3 per cent, up year-on-year (January to September 2015: 20.4 per cent)
- Despite significantly higher EBITA, **net profit** attributable to RTL Group shareholders was down year-on-year to €443 million (January to September 2015: €464 million), largely due to higher tax charges
- **Net cash from operating activities** was €625 million, leading to an increased operating cash conversion of 93 per cent (January to September 2015: 75 per cent)
- Following the payment of an interim dividend of €154 million on 8 September 2016, RTL Group had **net financial debt** of €988 million as of 30 September 2016 (30 June 2016: €958 million; 31 December 2015: €670 million)

Segments: Mediengruppe RTL Deutschland and Groupe M6 drive EBITA growth

- During the first nine months of 2016, **Mediengruppe RTL Deutschland's** EBITA increased by 2.4 per cent to €468 million (January to September 2015: €457 million). This improvement was mainly driven by higher TV and digital advertising and platform revenue
- **Groupe M6's** EBITA was up strongly to €173 million (January to September 2015: €136 million), mainly driven by the positive one-off effect from the gradual phase-out of the M6 Mobile contract which more than compensated the impact of the higher programming costs for the Uefa Euro 2016 live broadcasts
- **FremantleMedia's** EBITA decreased to €47 million (January to September 2015: €51 million), due to phasing effects and higher investment in the creative pipeline
- **RTL Nederland's** EBITA was stable at €52 million (January to September 2015: €52 million)

Q3/2016 in line with expectations

- In the third quarter of 2016, reported Group **revenue** was stable at €1,352 million (Q3/2015: €1,353 million), mostly due to negative exchange rate effects and the expected effects of sport events in a traditionally weak quarter, which were offset by RTL Group's dynamic growth in digital
- **Reported EBITA** was down by 3.3 per cent to €176 million (Q3/2015: €182 million), mostly due to lower contribution from RTL Belgium, Mediengruppe RTL Deutschland due to sport events and phasing effects at FremantleMedia. **EBITDA** was up 3.7 per cent to €224 million (Q3/2015: €216 million)
- **Net profit** attributable to RTL Group shareholders decreased by 9.7 per cent to €102 million (Q3/2015: €113 million)

The final between Portugal and France achieved a total audience share of 71.8 per cent. This was a new all-time audience record for M6, the most watched programme on French television year-to-date and the fifth largest TV audience ever recorded in France
- Following the summer months, RTL Nederland's channels reported an average audience share of 28.6 per cent among viewers aged 20 to 49 in September – up 0.3 percentage points year-on-year and 11.7 percentage points ahead of the commercial competitor SBS (September 2015: 11.2 percentage points)

Revenue

During the third quarter of 2016, revenue was stable at €1,352 million (Q3/2015: €1,353 million). RTL Nederland reported strong revenue growth of 5.7 per cent, driven by the distribution business. Revenue growth in the “Other Segments” was 34.3 per cent in the quarter, once again driven by the Group’s digital businesses, BroadbandTV, StyleHaul and SpotX.

Groupe M6

Financial results

The French net TV advertising market was up by an estimated 1.0 per cent compared to the first nine months of 2015. While Groupe M6's TV channels clearly outperformed the market and the company's rights-trading business SND reported significantly higher revenue, Groupe M6's distance-selling unit Ventadis reported lower revenue. As a result, Groupe M6's total revenue was up 1.3 per cent to €910 million (January to September 2015: €898 million).

Groupe M6's EBITA increased strongly to €173 million (January to September 2015: €136 million), mainly driven by the positive one-off effect from the gradual phase-out of the M6 Mobile contract (positive EBITA impact of €43 million) which more than compensated the impact of the higher programming costs for the Uefa Euro 2016 live broadcasts. In addition, Groupe M6 reported higher EBITA contributions from its rights business and the football club Girondins de Bordeaux.

This made it one of the only groups to achieve year-on-year growth in each of the two targets.

In the first nine months of 2016, the flagship channel **M6** recorded an audience share of 16.2 per cent (January to September 2015: 15.2 per cent), registering the strongest growth of all French TV channels in the commercial target group.

M6 clearly benefited from the record audiences achieved by broadcasting a total of 11 matches, including the final, of the biggest European football competition – Uefa Euro 2016. The 11 live matches aired on M6 were watched by 9.7 million viewers on average, representing 39.4 per cent of total audience. The final between Portugal and France on 10 July 2016 achieved the same audience as the final of the World Cup in 1998 between Brazil and France, namely 20.8 million viewers which represented a total audience share of 71.8 per cent, the best audience figure of the tournament. This also was a new all-time audience record for M6 since its creation, the most watched programme on French television year-to-date and the fifth largest TV audience ever recorded in France. In prime time, M6 launched successful new shows like *À l'état sauvage* (Running Wild), which scored an audience share of 26.9 per cent among women under 50 responsible for purchases and *Garde à Vous* (23.6 per cent). *Scènes de Ménages* remained the most-watched programme in the target group in access prime time (Mondays to Fridays) with an average audience share of 20.3 per cent.

During the reporting period, Groupe M6's total online video views grew significantly to almost 1.3 billion (January to September 2015: 871 million), mainly driven by the success of the digital entertainment platform 6play and the development of Groupe M6's multi-channel networks. 6play already has more than 13 million registered users, with a rapidly growing audience and on average more than 110 million video views per month across all screens.

On 22 July 2016, Groupe M6 acquired 100 per cent of Mandarin Cinéma SAS. Mandarin Cinéma holds a catalogue of 32 feature films. With this targeted acquisition, Groupe M6's catalogue now contains almost 1,300 feature films.

FremantleMedia

Financial results

Revenue at RTL Group's content arm, FremantleMedia, decreased by 5.1 per cent to €962 million in the first nine months of 2016 (January to September 2015: €1,014 million). The decrease is mainly due to exchange rate and phasing effects with some lower revenue from North America. This was, however, partly balanced by growth in Europe, including scope effects following the consolidation of recent acquisitions, as the company seeks to strengthen its content pipeline. FremantleMedia's EBITDA decreased by 7.8 per cent to €47 million (January to September 2015: €51 million), due to phasing effects and higher investment in the creative pipeline.

Atresmedia in Spain: The Spanish net TV advertising market was estimated to be up 6.4 per cent year-on-year. Driven by higher TV advertising sales, Atresmedia's total revenue increased by 6.0 per cent to €740 million (January to September 2015: €698 million), while first-half operating profit (EBITDA) grew by 25.8 per cent to €151 million (January to September 2015: €120 million). The profit share of RTL Group (EBITA contribution) was €19 million (January to September 2015: €14 million).

The increase was driven by the two channels Mega and Atreseries, which were launched in the second half of 2015. SpotX's overall revenue was up 10.5 per cent in the first nine months of 2016. Revenue from its programmatic services around its video inventory management platform continued to grow, as the industry continues to shift toward programmatic buying/selling. In addition, ad serving revenue nearly tripled for the nine month period compared to the same period in 2015. Largely due to the shift to programmatic buying, revenue from its non-programmatic "Managed Services"¹⁹ declined in the reporting period. For the full year 2016, SpotX expects its revenue to grow by double-digit rates. In the reporting period, SpotX registered 170 million ad impressions each day, up 49 per cent (September 2015: 114 million). More than 8 billion video ad decisions were processed daily via SpotX, an increase of 60 per cent (September 2015: 5 billion).

¹⁸ The previous commercial target group was viewers aged 16 to 54.

¹⁹ Managed Services means that SpotX works together with inventory buyers/advertisers that do not use programmatic tools to deliver defined campaign objectives.

Notes to the condensed consolidated interim financial information

1. REPORTING ENTITY AND STATEMENT OF COMPLIANCE

RTL Group SA (the “Company”), the parent company, is domiciled and incorporated in Luxembourg. This condensed consolidated interim financial information is presented in accordance with the requirements of IAS 34 Interim Financial Reporting as adopted by the European Union and should be read in conjunction with the consolidated annual financial statements for the year ended 31 December 2015.

RTL Group (“the Group”) forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group will be able to operate within the level of its current facilities. Management have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Therefore RTL Group continues to adopt the going concern basis in preparing its condensed consolidated interim financial information.

This condensed consolidated interim financial information was approved on 9 November 2016 by the Audit Committee upon delegation granted by the Board of Directors.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies have been consistently applied by the Group entities and are consistent with those used in previous year, except as follows:

a. New and amended standards and interpretations adopted by the Group

- IAS 19 revised, “Defined Benefit Plans: Employee Contributions”²²;
- Annual improvements 2010–2012. These amendments include changes from the 2010–2012 cycle of the annual improvements project, that affect seven standards: IFRS 2, “Share-based payment”, IFRS 3, “Business Combinations”, IFRS 8, “Operating segments”, IFRS 13, “Fair value measurement”, IAS 7, “Statement of cash flows”, IAS 16, “Property, plant and equipment” and IAS 38, “Intangible assets”. This implies consequential amendments to IFRS 9, “Financial instruments”, IAS 37, “Provisions, contingent liabilities and contingent assets”, and IAS 39, “Financial instruments – Recognition and measurement”²²;
- Amendments to IAS 1, “Disclosure Initiative”²²;
- Amendments to IAS 16, “Property, plant and equipment” and IAS 38, “Intangible assets” on depreciation and amortisation and IAS 16, “Property, plant and equipment” and IAS 41, “Agriculture” related to accounting for bearer plants. In the first amendment, the IASB has clarified that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. The IASB has also clarified that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. However, there is a rebuttable presumption, that revenue-based amortisation is permitted when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated²². The application of the amendments to IAS 38 did not generate any significant impact for the Group on the basis of the high correlation between revenue and consumption of the economic benefits embodied in the programme and other rights;
- Amendment to IAS 27, “Equity method in separate financial statements”²²;
- Amendment to IFRS 10, “Consolidated financial statements”, IFRS 12 “Disclosure of interests in other entities” and IAS 28, “Associates and joint ventures” on sale or contribution of assets and on investment entities applying the consolidation exception – effective from 1 January 2016²²;
- Amendment to IFRS 11, “Joint arrangements” on acquisition of an interest in a joint operation²²;

²² The application of these standards, interpretations and amendments had no significant impact for the Group

- Annual improvements 2012–2014. These amendments include changes from the 2012–2014 cycle of the annual improvements project, that affect four standards: IFRS 5, “Non-current assets held for sale and discontinued operations”, IFRS 7, “Financial instruments: disclosures”, IAS 19, “Employee benefits” and IAS 34, “Interim financial reporting”. This implies consequential amendments to IFRS 1, “First-time adoption of international financial reporting standards”²³.

b. Standards and amendments to existing standards that are not yet effective and have not been early adopted by the Group

The following new standards and amendments have been published but are not effective for the Group's accounting period beginning on 1 January 2016. The Group has yet to assess the impact of the new standards and amendments:

- IFRS 9, “Financial instruments” (and related amendment on general hedge accounting) – effective from 1 January 2018. The IASB has published the complete version of IFRS 9 which replaces the guidance in IAS 39. This final version includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the incurred loss impairment model used today²⁴;
- IFRS 14, “Regulatory deferral accounts” – effective from 1 January 2016²⁵;
- IFRS 15, “Revenue from contracts with customers” applies to all contracts with customers except those that are financial instruments, leases or insurance contracts and introduces a five-step process that the Group will have to follow. The quantitative impact anticipated from implementing IFRS 15 is currently being determined. The new Standard goes beyond just “commercial effect”, “fair value” and “risk and rewards” and will also result in a significant increase in the volume of disclosures related to revenue. IFRS 15 will be effective for reporting periods beginning on or after 1 January 2018²⁴;
- Amendment to IAS 7, “Statement of cash flows”, Disclosure initiative – effective from 1 January 2017²⁴;
- Amendment to IAS 12, “Income taxes”, recognition of deferred tax assets for unrealised losses – effective from 1 January 2017²⁴;
- IFRS 16, “Leases” defines a lease as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. IFRS 16 requires lessees to recognise nearly all leases on the balance sheet which will reflect their right to use an asset for a period of time and the associated liability for payments. The leases of satellite transponders qualifying as service agreements are no more reported in operating leases. The quantitative and disclosure impacts anticipated from implementing IFRS 16 are currently being determined. IFRS 16 will be effective for reporting periods beginning on or after 1 January 2019²⁴;
- Amendments to IFRS 2, “Share-based payment”, Classification and Measurement of Share-based Payment Transactions – effective from 1 January 2018²⁴;
- Amendments to IFRS 4, “Insurance contracts”, applying IFRS 9 “Financial instruments” with IFRS 4 – effective from 1 January 2018²⁴.

3. ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information the significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2015.

²³ The application of these standards, interpretations and amendments had no significant impact for the Group

²⁴ These standards and interpretations have not yet been endorsed by the European Union

²⁵ The European Commission has decided not to launch the endorsement process of this interim standard and to wait for the final standard

4. FINANCIAL RISK MANAGEMENT

4. 1. Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

This condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual consolidated financial statements; it should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2015. There have been no changes in the risk management policies and organisation since year end.

4. 2. Accounting classifications and fair value hierarchy

4. 2. 1. Financial instruments by category

Except for the long-term loan arrangement with BeProcurement Sàrl, the fair value of each class of financial assets and liabilities approximates to their carrying amount.

The fair value of the 10-year-term facility – calculated as the present value of the payments associated with the debt and based on the applicable yield curve and RTL Group credit spread – amounts to €565 million (31 December 2015: €548 million).

4. 2. 2. Fair value hierarchy

The following table presents the Group's financial assets and liabilities measured at fair value. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets (or liabilities);
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or the liability that are not based on observable market data (unobservable inputs).

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included in Level 1. The quoted market price used for financial assets by the Group is the current bid price.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

If one or more significant inputs is not based on observable market data, the instrument is included in Level 3.

The Group's finance department, which includes Group Treasury and Controlling teams, perform the recurring and non-recurring valuations of items to be valued at fair value for financial purposes, including Level 3 fair values. These teams report directly to the Chief Financial Officer, who reports to the Audit Committee at least once every quarter, in line with the Group's quarterly reporting dates. The main Level 3 related inputs used by RTL Group relate to the determination of the expected discounted cash flows as well as the discount rates used in the different valuations.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments (Level 2);
- The fair value of forward foreign exchange contracts classified under Level 2 are determined using forward exchange rates at the balance sheet date, with the resulting value discounted back to present value;
- For instruments classified under Level 3, other techniques, such as discounted cash flow analysis, based for the main instruments on the significant unobservable inputs (e.g. forecast revenue growth rates and market multiples are used to determine fair value for the remaining financial instruments) or the Black-Scholes model. The volatility is primarily determined by reference to comparable publicly traded peers.

30 FremantleMedia has sale and leaseback arrangements for €2 million with a maturity in March 2017

31 The impact of RTL City project on the invested capital of the Group is €108 million (€117 million at 31 December 2015). The decrease is mainly due to a cash inflow of €32 million related to disposals recognised in previous years

6. ACQUISITIONS AND DISPOSALS

6. 1. Acquisitions and increases in interests held in subsidiaries

Had the business combinations occurred at the beginning of the year, the revenue and the profit attributable to RTL Group shareholders would not have materially changed.

6. 2. Details of main acquisitions and disposals, increases in interests held in subsidiaries

Abot Hameiri

On 11 January 2016, FremantleMedia Netherlands BV ("FremantleMedia") acquired 51 per cent of Abot Hameiri Communications Ltd ("AH"), an Israeli content development and TV production company, which primarily focuses on the development and production of both established and original entertainment, scripted drama and factual programmes. The acquisition is in line with the growth strategy of strengthening the creative pipeline and entering new markets. The transaction qualifies as a business combination since RTL Group gained the control of AH.

The purchase consideration amounts to €7 million, net of cash acquired, and includes a top-up adjustment based on the level of profitability realised in 2015. The purchase accounting did not lead to the recognition of additional identifiable assets and liabilities. Goodwill of €8 million mainly represents the value of creative talent and market competence of Abot Hameiri's workforce and will not be tax deductible. AH is allocated to the FremantleMedia cash generating unit.

FremantleMedia holds an option on the remaining 49 per cent of the share capital. The strike price of the option, exercisable in 2021, is based on a variable component. The consideration for 100 per cent of AH is capped at €46 million. If FremantleMedia does not exercise the option, the non-controlling shareholders have a drag-along right and a call option. The fair value of the related derivative was € nil million at completion date and remains unchanged at 30 September 2016.

Transaction-related costs of €0.3 million, mainly consisting of legal fees and due diligence costs, are reported in "Other operating expenses".

Smartclip

On 11 March 2016, RTL Group Vermögensverwaltungs GmbH entered into an agreement to acquire 93.75 per cent of smartclip Holding AG and five of its subsidiaries operating in Germany, Italy, the Netherlands and Sweden ("Smartclip"). Smartclip bundles the online video advertising inventory of 700 publishers worldwide, and manages the integration and serving of video advertising to all internet-connected screens. As a strong sales house and technological innovator, Smartclip also creates solutions for Smart-TV and multiscreen advertising. Smartclip complements RTL Group's investments in digital advertising sales. The German cartel office approved the transaction on 22 April 2016. The transaction qualifies as a business combination since RTL Group gained the control of Smartclip.

The purchase consideration amounts to €37 million, net of cash acquired. Intangible assets include the trade name (€1 million) and customer contracts (€4 million). A corresponding deferred tax liability amounts to €1 million. Goodwill of €38 million is attributable to the skills and market competence of Smartclip's workforce and the synergies expected. The goodwill arising from the acquisition is not tax deductible. Smartclip is allocated to the Mediengruppe RTL Deutschland cash generating unit.

The remaining 6.25 per cent are subject to symmetrical put and call options exercisable in 2017. The strike price of the put option is based on a variable component and capped at €200 million on a 100 per cent basis. The related amount has been initially recognised as a financial liability for €3 million through equity for the present value of the redemption amount. The financial liability subsequently measured at amortised cost remains unchanged at 30 September 2016. Any further re-measurement of the liability will be recorded through the income statement.

Transaction-related costs of €0.2 million, mainly consisting of legal fees and due diligence costs, are reported in "Other operating expenses" (12 months ended 31 December 2015: €0.4 million).

Mandarin Cinéma

On 22 July 2016, Groupe M6 acquired 100 per cent of Mandarin Cinéma SAS ("Mandarin Cinéma"). Mandarin Cinéma, which is based in France, holds a catalogue of 32 feature films. With this targeted acquisition, M6 Group continues the consolidation of its activities of distribution of audiovisual rights by extending its catalogue, which now contains almost 1,300 full-length feature films. The transaction qualifies as a business acquisition since RTL Group gained the control of Mandarin Cinéma.

The purchase consideration amounts to € 11 million, net of cash acquired. In addition the purchase agreement includes an earn-out mechanism based on a variable performance component; the contingent consideration has been estimated and recognised for € 1 million. The fair value of identified assets has been allocated to the catalogue for € 9 million and to accounts receivable for € 7 million. A corresponding deferred tax liability has been recognised for € 2 million. Goodwill is € nil million. Mandarin Cinéma is allocated to Groupe M6 cash-generating unit.

Transaction-related costs are insignificant.

Other

A second instalment of the SpotX earn-out was paid during the second quarter 2016 for an amount of € 4 million (30 September 2015: € 7 million).

The fair value of the derivative related to the SpotX call option has been decreased to € 2 million at 30 June 2016 and remains unchanged at 30 September (31 December 2015: € 3 million). The related expense of € 1 million is reported in "Financial results other than interest" (see note 8).

The consideration recognised in November 2013 at the time of the gain of control of Miso Film and related to the 49 per cent non-controlling interests had been initially recognised as a financial liability through equity for the present value of the redemption amount. The financial liability has been re-measured from € 5 million to € 6 million at 30 June 2016 and remains unchanged at 30 September. The related expense of € 1 million is reported in "Financial results other than interest" (see note 8). At 31 December 2015, an income of € 4 million had been recognised.

Since the gain of control of 495 Productions on 26 March 2014 by RTL Group, the minority shareholder holds a put option on the remaining 25 per cent non-controlling interests. The financial liability has been re-measured to € 3 million at 30 June 2016 and remains unchanged at 30 September (31 December 2015: € 7 million) in line with the future performance plan. The related income of € 4 million is reported in "Financial results other than interest" (see note 8).

Since the gain of control in June 2013, RTL Group holds a call option on the BroadbandTV Corp. (“BBTV”) non-controlling interests measured at fair market value. RTL Group started the process for a potential exercise of the call option in June 2016. As part of that process, the fair market value of BBTV has to be determined, after which RTL Group has to decide whether or not it will actually exercise its call option. Such decision is due by the end of January 2017. Should RTL Group decide not to exercise its call, the non-controlling shareholders would be entitled to start an exit mechanism within a 2-year period thereafter by first offering their stake to RTL Group and, if RTL Group does not accept the offer, by dragging RTL Group’s stake in a 100 per cent sale of the company at a consideration per share at least equal to the consideration offered to RTL Group.

September 2015 (updated at 30 September 2016)

Oxygem

On 9 January 2015, Groupe M6 acquired 100 per cent of Oxygem SA and its subsidiaries (“Oxygem”). Oxygem operates various websites. The acquisition strengthened the monetisation capabilities of Groupe M6 in the online advertising market and generates significant synergies by cross-fertilising digital expertise. The transaction qualified as a business combination since RTL Group gained the control of Oxygem.

The purchase consideration amounted to €18 million, net of cash acquired and, in addition, to €6 million, corresponding to the reimbursement of a loan previously granted to Oxygem by the seller. The fair value of the brand names, subscriber base and technology was measured for €8 million, of which €7 million for the brand names. A corresponding deferred tax liability was recognised for €3 million. As a result, a goodwill of €17 million was recognised. The latter was attributable mainly to the synergies expected and to the skills and expertise of the Oxygem workforce. The goodwill is not tax deductible. Oxygem was allocated to the Groupe M6 cash generating unit.

The transaction-related costs of €0.2 million were reported in “Operating expenses”.

YoBoHo

On 1 April 2015, BroadbandTV Corp. ("BBTV") acquired 87.6 per cent (71.3 per cent on a fully diluted basis) of YoBoHo New Media Private Limited and its subsidiary YoBoHo New Media Inc. ("YoBoHo"). RTL Group consequently held an interest of 50.3 per cent (36.9 per cent on a fully diluted basis) in YoBoHo. YoBoHo, which is based in Mumbai, produces kids-and-family oriented video for distribution across digital platforms. The acquisition of YoBoHo supported RTL Group's ambitions to secure a leading position in the global online video market. The transaction qualified as a business combination since RTL Group gained the control over YoBoHo.

The purchase consideration, partly contributed to YoBoHo, amounted to €8 million, net of cash acquired and was contingent on a cash-and-debt free position adjusted for normalised working capital. The identified intangible assets amounted to €4 million and reflected the value placed in original characters (€2 million) and trade names and a non-compete agreement (€2 million). A corresponding deferred tax liability was recognised for €1 million. The goodwill of €6 million corresponded to the value of creative talent, workforce and synergies. It is not tax deductible. YoBoHo was allocated to the BBTV cash generating unit.

BBTV also benefits from a call option for the remaining non-controlling interests. The call window opens two years from 2015 closing and ends 18 months thereafter; the non-capped strike price is determined on the basis of the fair value of YoBoHo.

The transaction-related costs of €0.3 million were reported in "Operating expenses" at 30 September 2015 (€0.5 million at 31 December 2015).

UFA Sports

On 20 April 2015, RTL Group agreed with Lagardère Unlimited Germany GmbH ("Lagardère Unlimited") to fully dispose of the interests held in UFA Sports GmbH and some of its subsidiaries ("UFA Sports"). The subsidiaries apareo Holding GmbH, apareo Deutschland GmbH and UFA Sports Asia Pte Ltd were excluded from the deal and remained with RTL Group. The German competition authorities approved the transaction on 15 June 2015. In consequence, RTL Group lost control over UFA Sports and derecognised all related assets and liabilities. In conjunction with the disposal, UFA Sports repaid the net amounts owed to and by RTL Group of €11 million thanks to the reserve contribution made by the acquirer Lagardère Unlimited (€6 million). At the same time, RTL Group equalised the net cash position of UFA Sports for €2.5 million, of which €1.4 million for a guarantee granted for commercial bad debts.

Wildside

On 7 August 2015, FremantleMedia Group Ltd ("FremantleMedia") acquired a 62.5 per cent stake in Wildside Srl and its 100 per cent affiliates ("Wildside"). Wildside is an Italian television and feature film production entity. The acquisition enhanced FremantleMedia's scripted presence in the Italian market and bolsters the global content pipeline of the Group overall. The transaction qualified as a business combination since RTL Group gained the control of Wildside.

The purchase consideration amounted to €34 million, including €9 million bank overdrafts, net of cash. Identified intangible assets had been recognised for €3 million, reflecting the value placed in non-compete agreements (€1 million), trade name and customer contracts (€2 million). A corresponding deferred tax liability had been recognised for €1 million. Goodwill of €22 million represented the value of creative talent and skills of Wildside's workforce. The goodwill is not tax deductible. Wildside was allocated to the FremantleMedia cash generating unit.

The remaining 37.5 per cent interest is subject to call and put options exercisable at the latest in 2020. The strike prices are based on a variable component. The consideration for 100 per cent of Wildside is capped at €75 million excluding working capital funding required. The put option had been recognised at the acquisition date for an amount of €8 million (nominal value) through equity as a liability representing the present value of the redemption amount. The financial liability is subsequently measured at amortised cost and remains unchanged at 30 September 2016. The fair value of the call option of € nil million at 31 December 2015 remains unchanged at 30 September 2016.

Transaction-related costs of €0.7 million at 30 September 2015 (€0.8 million at 31 December 2015), mainly consisting of legal fees and due diligence costs, were reported in "Other operating expenses".

Other

On 7 January 2015, RTL Group acquired 100 per cent of Dinnersite BV (“Dinnersite”), an online restaurant guide. The combination with Couverts, the online table reservation portal owned by RTL Nederland Ventures BV, created a leading position in the Dutch online restaurant booking market. The transaction qualified as a business combination since RTL Group gained the control of Dinnersite. The purchase consideration amounted to below €1 million, net of cash acquired. Goodwill was € nil million. Dinnersite BV merged into Couverts Reserveren NV in 2015.

RTL Group, through FremantleMedia North America Inc, incorporated on 13 March 2015 the new company Big Balls LLC, held at 95 per cent, in order to launch a digital broadcasting network (“digi-net”) in the US called Buzzr, scheduling FremantleMedia’s large library of classic game shows.

On 1 April 2015, RTL Nederland BV (“RTL NL”) acquired 100 per cent of Grand Gear Media BV, which operates a Dutch digital platform named Bright, a cross-media platform operating in the field of innovative lifestyle related-content and the Bright Assets and all Bright digital platforms and databases such as *Bright.nl*, Uitpakparty, Bright Ideas, Bright Store and events. The transaction qualified as a business combination since RTL Group gained control. Goodwill was € nil million. Grand Gear Media BV merged into RTL Nederland BV in 2015.

On 1 April 2015, RTL Group gained the control of Dutch Learning Company BV (“DLC”) through a capital increase of €1 million. From that date, RTL Group holds 80.3 per cent of the share capital of DLC. As a result, a goodwill of €1 million was recognised. The goodwill is not tax deductible. Before 1 April 2015, DLC was accounted for using the equity method. The measurement at fair value of the 37.8 per cent interest previously held was insignificant. Since 1 August 2015, RTL Group holds 100 per cent of the share capital of DLC.

On 7 April 2015, the non-controlling interests of The Entertainment Group BV (“TEG”) agreed with RTL Nederland Interactief BV (“RTL Interactief”) on the transfer of the remaining 35 per cent held in the share capital for an amount of €3 million fully paid at 30 June 2015. FremantleMedia and the non-controlling shareholder entered into an agreement that permits FremantleMedia to purchase the remaining 25 per cent in the first half of 2020. The strike price is based on a variable component. If RTL Group does not exercise the call option, the non-controlling shareholder will have the option to acquire the 75 per cent stake. In addition to Couverts Reserveren BV (see note 17.), Pepper BV ("Pepper"), whose full disposal has been approved in early October, is presented as a disposal group at 30 September 2016.

RTL Group had received in April 2015 an amount of €4 million following the disposal during the first quarter of the investment held in AdSociety.

12. SEASONALITY OF OPERATIONS

The Group's broadcast business is subject to strong seasonal fluctuations and hence the results for the first nine months of 2016 do not necessarily permit predictions as to its future performance. Advertising revenue is impacted by underlying economic conditions and the cyclical demand for advertising – which during the important fourth quarter normally offset the traditionally weaker summer months. Advertisers appear to have front loaded their bookings into the first six months of 2016, in order to avoid the summer sports events, the 2016 Summer Olympics in Rio and the UEFA European Football Championships. Accordingly, quarter four advertising revenue may not be on a similar level as to the prior year.

The Group's content arm, FremantleMedia, usually generates a higher proportion of both revenue and EBITA in the second half of the year partly due to the seasonality of programme sales but also to the revenue generated by the distribution, licensing and merchandising business. The seasonality is not expected to be substantially different for 2016 and the timing of the delivery of certain high value drama productions may further exaggerate this tendency when compared to 2015.

13. EARNINGS PER SHARE

The calculation of basic earnings per share is based on the profit attributable to RTL Group shareholders of €443 million (September 2015: €464 million) and a weighted average number of ordinary shares outstanding during the period of 153,566,511 (September 2015: 153,593,380) calculated as follows:

On 26 June 2008, the Board of Directors of RTL Group agreed to proceed with the tax pooling of its indirect subsidiary RTL Group Deutschland GmbH ("RGD") into Bertelsmann Capital Holding GmbH ("BCH"), a direct subsidiary of Bertelsmann SE & Co. KGaA.

To that effect, RGD entered into a Profit and Loss Pooling Agreement ("PLP Agreement") with BCH for a six-year period starting 1 January 2008. Simultaneously, Bertelsmann SE & Co. KGaA entered into a Compensation Agreement with CLT-UFA SA, a direct subsidiary of RTL Group, providing for the payment to CLT-UFA SA of an amount compensating the above profit transfer and an additional commission ("Commission") amounting to 50 per cent of the tax saving based upon the taxable profit of RGD.

Through these agreements, as from 1 January 2008, Bertelsmann SE & Co. KGaA and the RGD sub-group of RTL Group are treated as a single entity for German income tax purposes.

As the PLP Agreement does not give any authority to BCH to instruct or control RGD, it affects neither RTL Group nor RGD's ability to manage their business, including their responsibility to optimise their tax structures as they deem fit. After six years, both PLP and Compensation Agreements are renewable on a yearly basis. RGD and CLT-UFA SA have the right to request the early termination of the PLP and Compensation Agreements under certain conditions.

On 15 May 2013, the Board of Directors of RTL Group agreed to the amendment of the Compensation Agreement in light of the consumption of the trade tax and corporate tax losses at the level of Bertelsmann SE and Co. KGaA and of the expected level of indebtedness of RTL Group in the future. The PLP Agreement was slightly amended in 2014.

In the absence of specific guidance in IFRS, RTL Group has elected to recognise current income taxes related to the RGD sub-group based on the amounts payable to Bertelsmann SE & Co. KGaA and BCH as a result of the PLP and Compensation Agreements described above. Deferred income taxes continue to be recognised, based upon the enacted tax rate, in the consolidated financial statements based on the amounts expected to be settled by the Group in the future. The Commission, being economically and contractually closely related to the Compensation, is accounted for as a reduction of the tax due under the Agreements.

For the interim periods, the Commission is determined on Management reasonable estimate on both expected annual taxable results of the tax group RGD and the tax group Bertelsmann SE & Co. KGaA. This estimate is reviewed on a quarterly basis to take into account actual year-to-date results and material known developments affecting the two entities for the remaining part of the year.

At 30 September 2016, the balance payable to BCH amounts to €354 million (31 December 2015: €583 million) and the balance receivable from Bertelsmann SE & Co. KGaA amounts to €271 million (31 December 2015: €472 million).

For the period ended 30 September 2016, the German income tax in relation to the tax pooling with Bertelsmann SE & Co. KGaA amounts to €94 million (30 September 2015: €94 million). The Commission amounts to €11 million (30 September 2015: €42 million). The brought forward income tax losses available for offset were significantly consumed at 31 December 2015.

The UK Group relief of FremantleMedia Group to Bertelsmann Group resulted in a tax income of €2 million (30 September 2015: €2 million).

All Danish entities under common control by an ultimate parent are subject to Danish tax consolidation, which is mandatory under Danish tax law. Blu A/S, a 100 per cent held subsidiary of RTL Group, was elected as the management company of the Bertelsmann Denmark Group.

16. 2. Main transaction with investments accounted for using the equity method

At 30 September 2016, RTL Group owed a cash pooling payable to RTL Disney Fernsehen GmbH & Co. KG for an amount of €15 million (31 December 2015: €5 million).

17. SUBSEQUENT EVENTS

On 27 September 2016, Magyar RTL Televízió Zártkörűen Működő Részvénytársaság ("RTL Hungary") entered into an agreement to acquire 30 per cent stake representing 51 per cent of the voting rights in Central Digital Media Kft ("Central Digital Media"), one of the leading web publishers in Hungary. Central Digital Media Kft. is operating a number of websites and mobile apps. Central Digital Media is ranked as one of the top three online media companies in Hungary, based on web analytics. The acquisition, subject to approval by the Hungarian competition authority, will significantly accelerate the Group's strategy to increase RTL Hungary's presence in the digital media market. The transaction will qualify as a business combination since M-RTL will gain control of Central Digital Media. The purchase consideration, which amounts to €5 million, is determined on a cash and debt free basis. RTL Hungary holds call options on the remaining 70 per cent shares exercisable 18 months after the deal completion. The strike price of the options is based on a variable component. In the event that RTL Hungary does not exercise the call options, each party will have the option to require RTL Hungary to exit.

On 26 October 2016, RTL NL has completed the disposal of Couverts Reserveren BV to TripAdvisor for an amount of €6 million.

On 26 October 2016, RTL Group entered into an agreement with a third party to sell Media Properties Sàrl ("Media Properties"). Media Properties owns RTL Group's new buildings that are still under construction at 30 September 2016. These new buildings ("RTL City"), which RTL Group will leaseback, will host the Corporate Centre and the other operations of the Group in Luxembourg. The disposal is expected to be completed during the second quarter of 2017.
