- Increase in book value of investment property by EUR 318.2m, mainly due to revaluation in Germany (EUR 274.2m), first time consolidation of ROBYG (EUR 105.3m), further investments in Poland (EUR 95.9m), smaller capex in Germany of EUR 59.8m and smaller portfolio acquisitions (EUR 12.8m). On the other hand, properties with a book value of EUR 216.0m were reclassified as non-current assets held for sale and EUR 13.3m as inventories.
- EUR 247.0m higher other non-current assets primarily driven by ROBYG goodwill from first-time consolidation of ROBYG at 31 Mar-2022 (EUR 235.0m)
- Increase in real estate inventory also largely due to the first-time consolidation of ROBYG (EUR 631.3m).
- 4 Prepaid transaction price of EUR 67.9m for ROBYG acquisition reported as a separate line at 31 Dec-2021.
- Change in equity mainly corresponds to capital increase in July 2022 (EUR 193.6m), consolidated net profit (EUR 334.9m) and of dividend (EUR 136.2m).
- Net reduction in non-current financial debt results mainly from the reclassification of a corporate bond (EUR 125 million) and a promissory note loan (EUR 100.0 million) to current financial debt. This is partly offset by promissory notes in the amount of EUR 64.5m issued in Q2.
- To finance the acquisition of ROBYG, a bridge loan of EUR 650.0m was used. In July, EUR 340m were repaid from the net proceeds of the capital increase, among other measures. Furthermore, the change results from the first-time reporting of short-term corporate bonds of ROBYG (EUR 76m) as well as the reclassification of long-term debt into the short-term section (EUR 225m).
- Change in other current liabilities is mainly due to advance payments received for sales by ROBYG (EUR 296.2m).
